## --- Portfolio Segmentation

### LINEARLight Flex

- 5 years warranty
- 50kh
- CRI>80
- Constant working current
- Easy cut & connect with CONNECTsystem
- VDE, CE, UL

### Value Flex

- 3 years warranty
- 35kh
- CRI>80
- Constant working current
- Easy cut & connect with CONNECTsystem
- CE

### Basic Flex

- 2 years warranty
- 20kh
- CRI>80
- Only resistors to limit working current
- Easy cut & connect with connectors

### Indoor Application

### Outdoor Application

# LECV Flex

## Linearlight Flex

- SP** SHORTPITCH Design
- 80** CRI80 CCT's ( $\geq 3000\text{K}$ )
- 80** Warm White + warmest CCT
- 90** CRI90 CCT's (2700, ..., 4000K)
- SW** Special White colors
- TW** Tunable White (2700-6500K)
- M** Monochromatic Colors
- RGB** RGB + (RGBW planned)

# NPD

## LINEARLight Flex Power Range

### Product Benefits

High variety in colors

Tunable White versions for dynamic white as well as Shop white

New improved tape

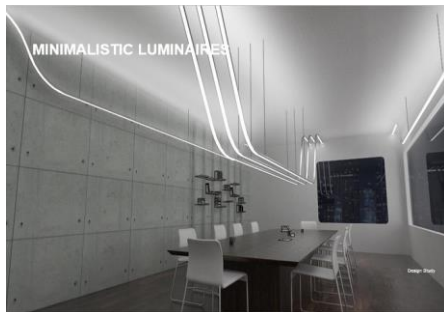

High flux level up to 3850 lm/m

Efficiency up to 147 lm/m

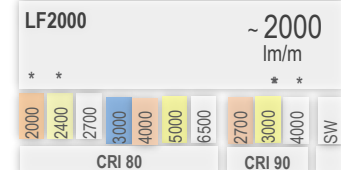

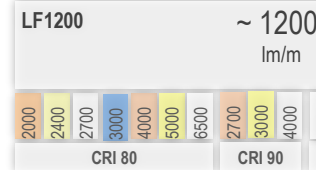

### Applications

- Cove Lighting
- General Lighting
- Flexible Luminaires

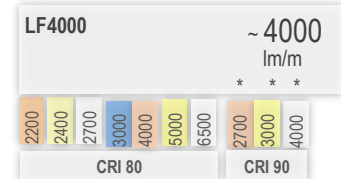

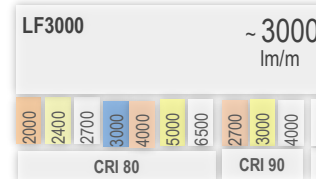

### Product Technical Description

LF Tunable White 1200-4000 lm/m

\*: Expected by end 2017

# NPD

## LINEARLight Flex Power Range Protect

### Product Benefits

High Flux levels in Protect range  
→ up to 3000 lm/m  
→ 800 lm/m Version for Warm White

Warm white in protect  
→ down to 2400K

Special Whites upon  
positive feasibility

### Applications

- Cove Lighting
- Ships
- Swimming Pools

# LECV Flex

## --- Value Flex Portfolio Update

### VALUE Flex®

#### Key Features/Improvements:

- Better reliability with improved layout design and extrusion production
- Much higher efficacy for spec in up to 130lm/W on G3
- ShortPitch version for seamless output even under slim diffuser
- Better flexibility to achieve different lumen levels with small dimmer
- VFP1000 Plus with pre-molded connector could be up to IP68 protection for underwater application (no re-assembling on customer side)

#### VF2400S

#### VF2000

#### VF1200S

#### VFP1200

#### VFP1000

#### VFP1000 Plus

# Value Flex G3 Plus

## Product Features

**A robust Flex solution for true outdoor application!**

### Product description

- Beam Angle: 120°
- Lumen output: 1000 lm/m
- Working voltage: 24 VDC
- Power: 9.6 W/m
- Length per reel: 10,000 mm
- IP65 protect
- CCT: 2400k, 2700k, 3000k, 4000k, 6500K

### Product benefits

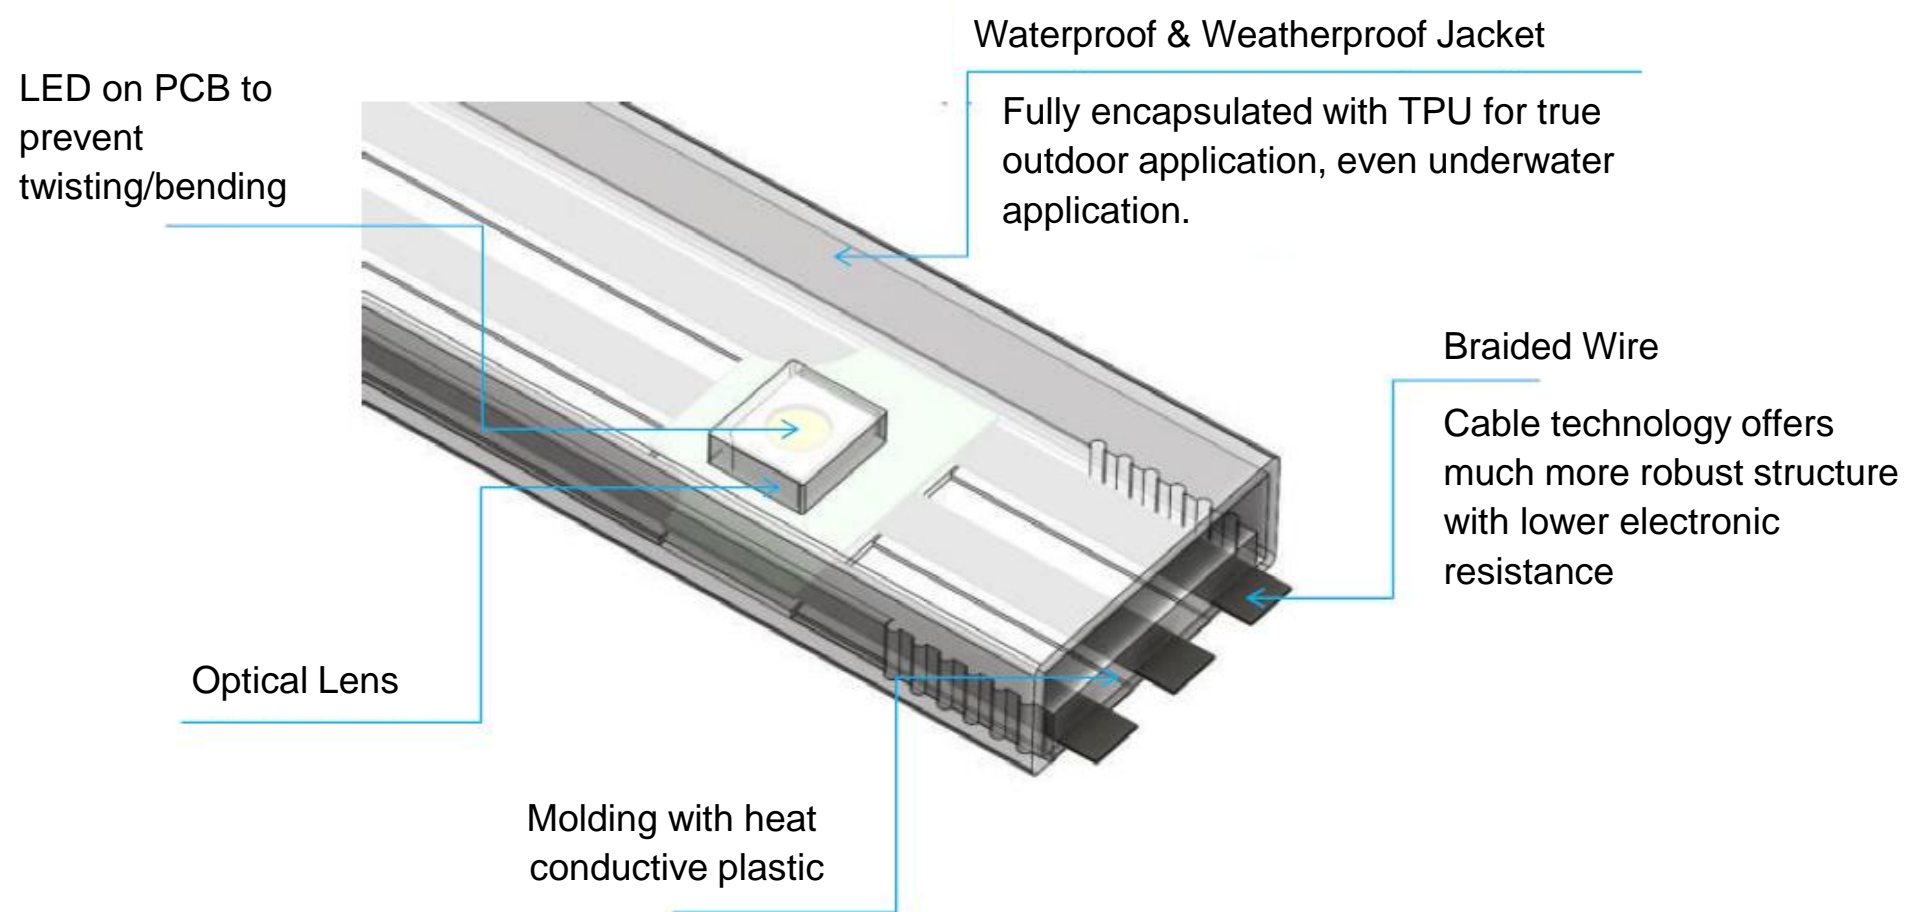

- **Good reliability with robust housing and design**
- **Single IC per CCT**
- **SDCM<4**
- UV proof
- Flam proof
- 3 years OSRAM warranty

### Applications

- Cove Lighting
- Shelf Lighting
- Under water solution as customization
- Signage

# Value Flex G3 Plus

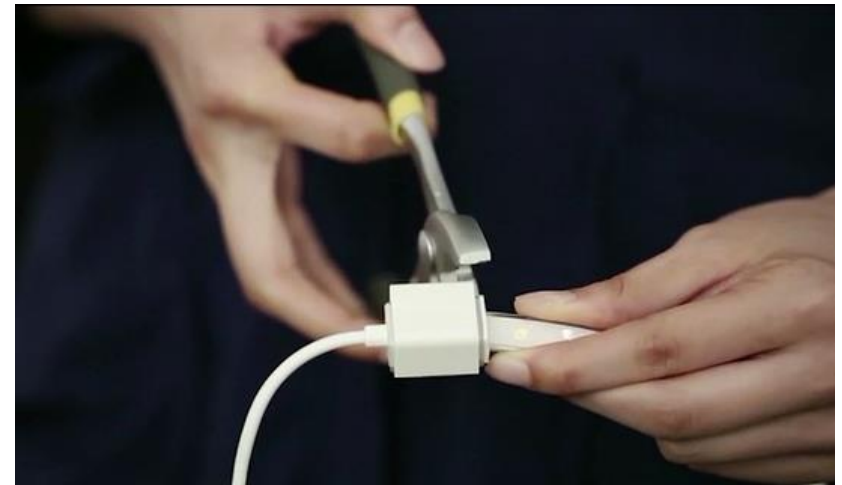

## Molding + Extrusion + Braided Wire Technology

# Unique Product Design

## Easy connection

---

# Unique Product Design

Easy connection

---

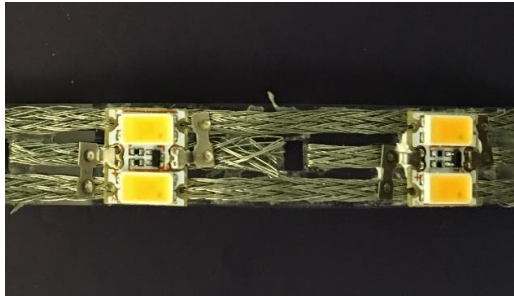

# Benchmark

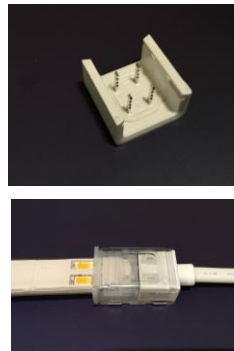

## VF G3 Plus vs. Competitor

### VF G3 Plus

- Braided wire for lower voltage drop

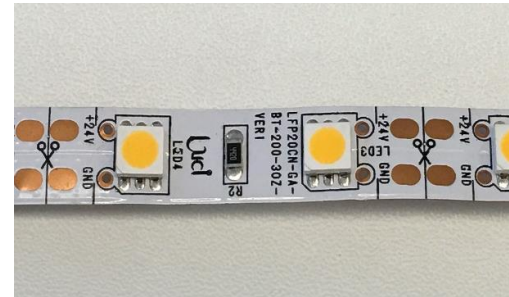

- Packing: 10~12m/reel
- TPU + thermal plastic molding + braided wire
- Punching through pin connector with locking system

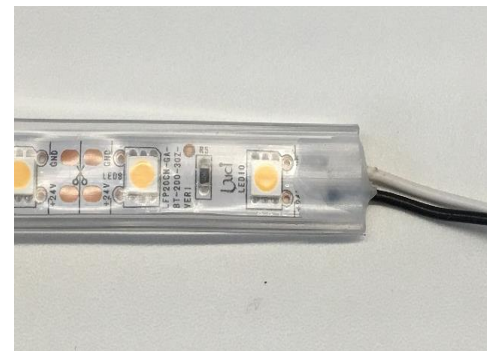

### Competitor

- Non constant current by resistor

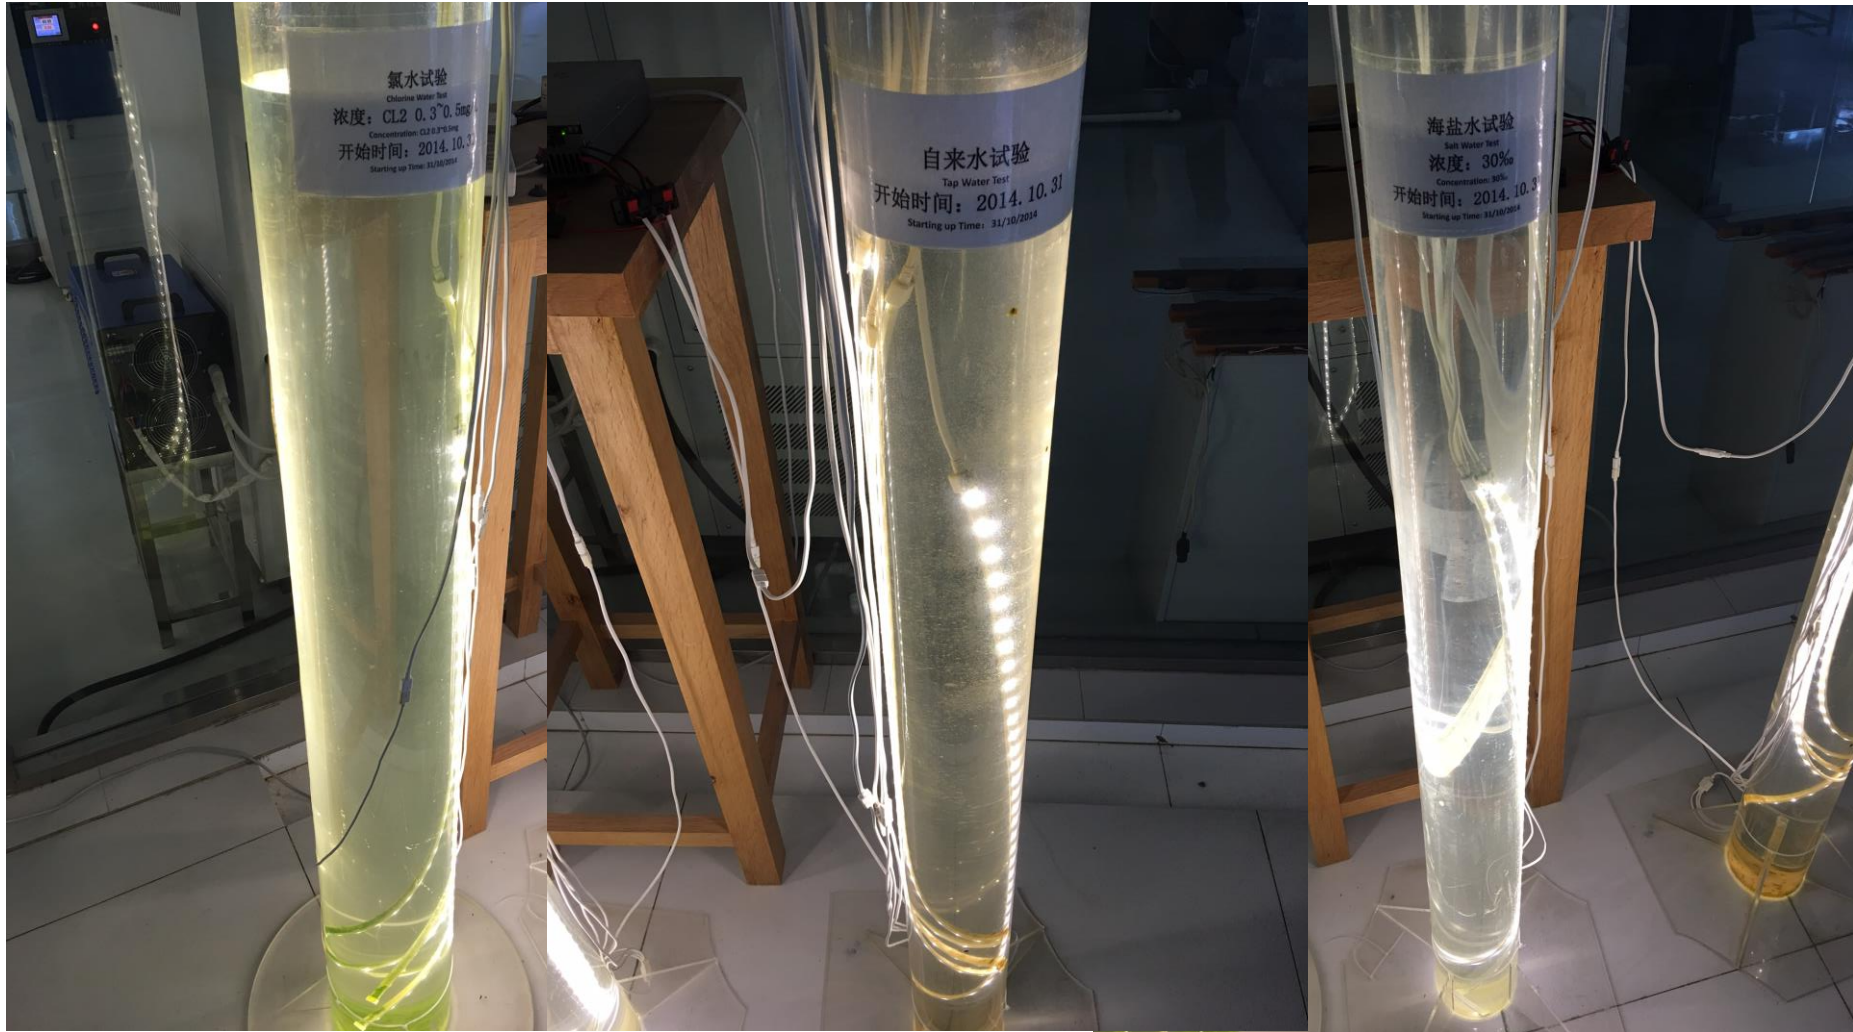

- Packing: 4.5~5m/reel
- Silicon tube + FPCB + enhanced plate

# Benchmark

## IP68 Test

# Customer Service

## Customization

---

- IP68 for under water application
- Pre-molded connector
- Cut to size customization service

# Value Flex G3

## --- Product View

### QUALITY DESIGN

- High precise IC solution offering constant current through LEDs to give stable and consistent lumen output
- Conformal coating to protect LEDs from ESD damage

### PROFESSIONAL LIGHT

- Single narrow white binning for homogenous light color appearance
- High efficiency & high flux for green light

### High PROTECTION

- High performance silicone for durable protection
- IP66 protection against dust and water
- UV protection for outdoor use
- Fantastic view with bicolourable silicon housing

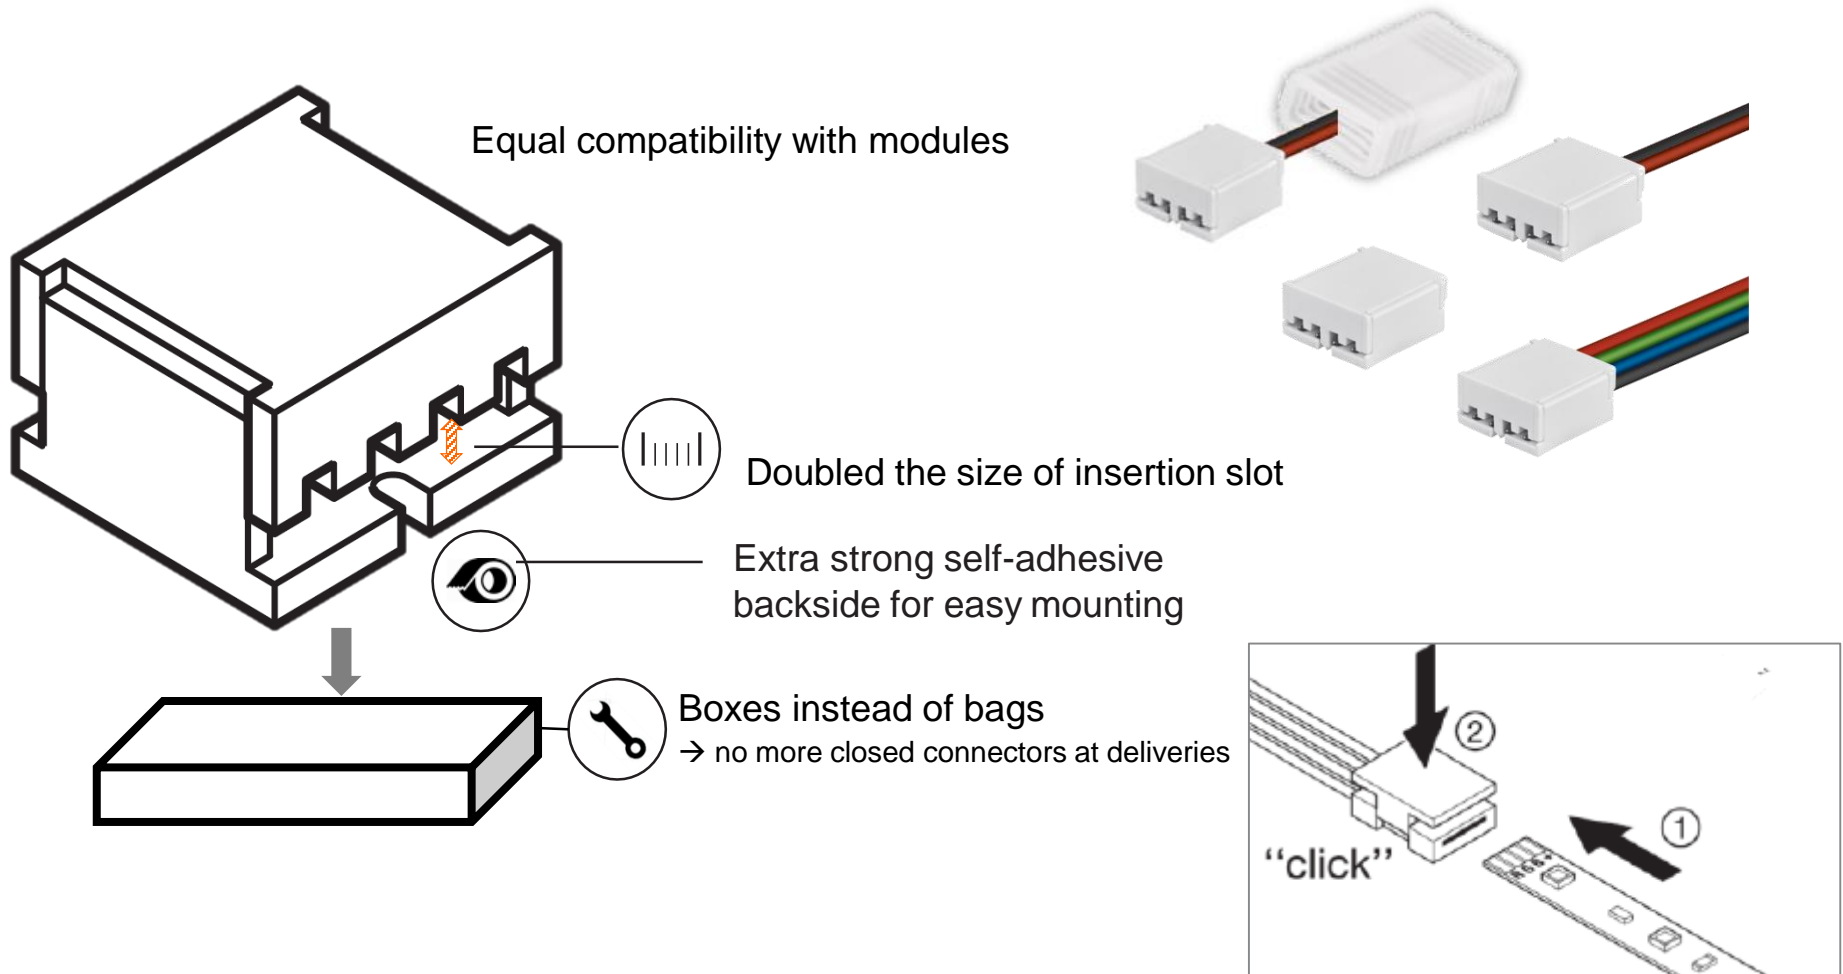

### Design Freedom by CUT&CONNECT

- Freedom to cut per 100mm/60mm
- Connect with specially designed CONNECTsystems without big effort
- Easy power supply with 24V technology and matching OPTOTRONIC 24V system

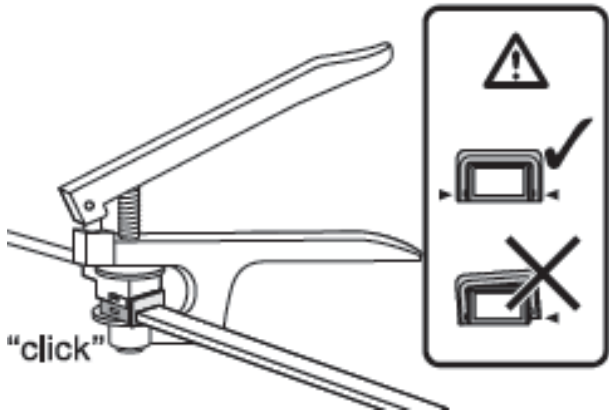

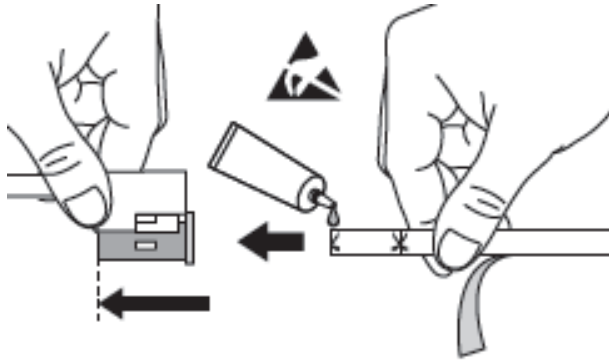

# Value Flex G3

--- Improved Connector Solution for IP20 and IP54

# Value Flex G3

--- Improvement with IP66 Connectors Available

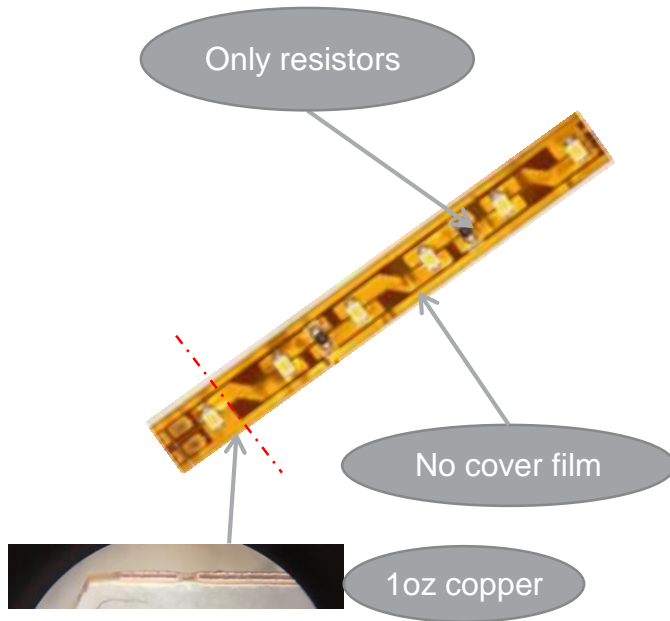

Value Flex G3 could share IP67 connectors same as LINEARLight Flex to achieve IP66 protection after re-assembling.

Note: Glue is needed at cut points for Value Flex G3.

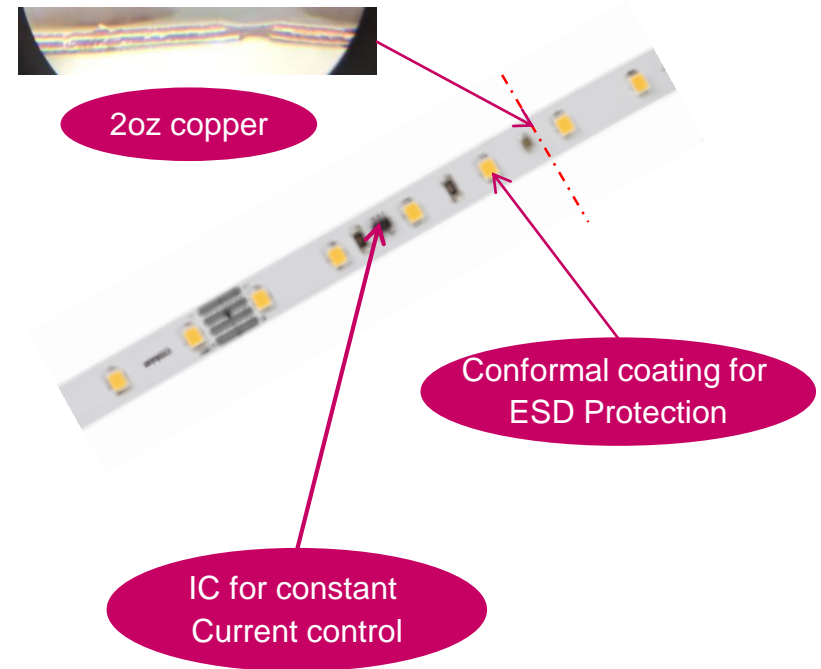

# Benchmark

## --- Precise Current Control and Thicker PCB Material

### Other Brands only with Resistors

### Value Flex G3

### Disadvantages

- Brightness vary with working voltage change
- High risk to be damaged by ESD or wrong connection

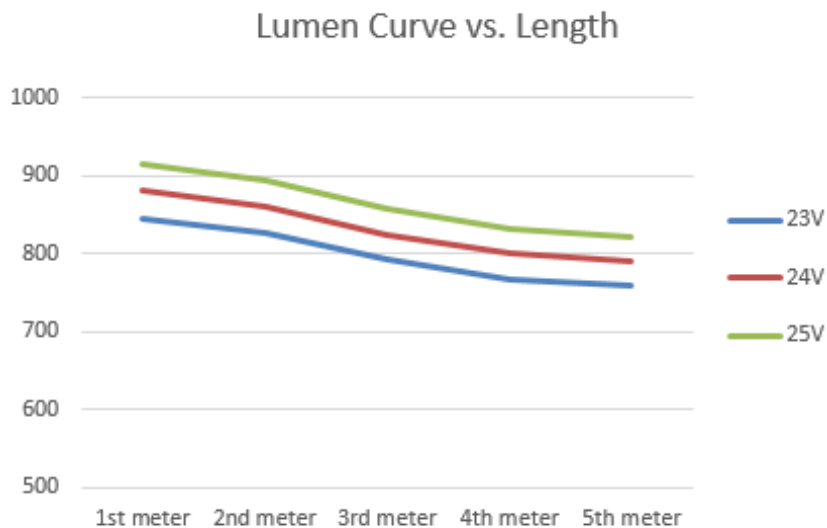

### Advantages

- Stable and consistent brightness
- Avoid being damaged by ESD or anti-polarity

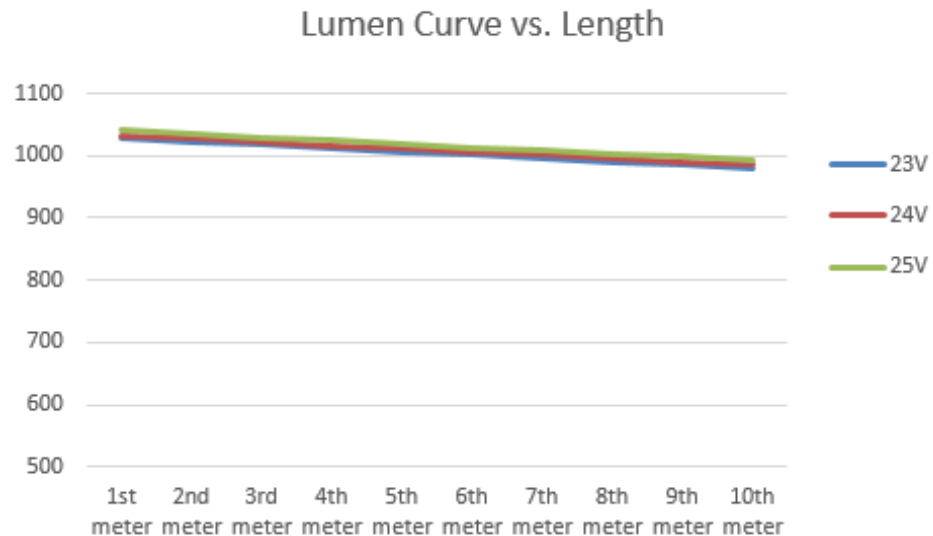

# Benchmark

## --- Consistent Flux with Constant Current IC Solution

### Other Brands only with Resistors

### Value Flex G3

### Disadvantages

- Lumen output decrease significantly along the reel
- Lumen output vibrate with input voltage changing

### Advantages

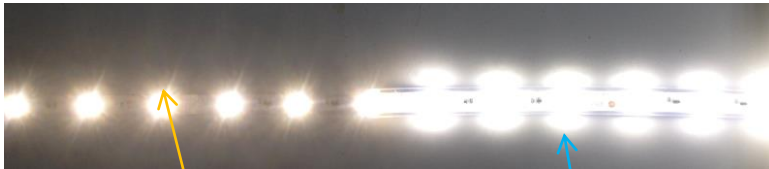

- Consistent brightness in whole reel
- Stable lumen output even input voltage changes

# Benchmark

--- No Color shift for IP version

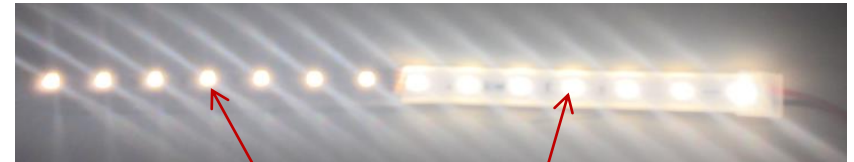

Other Brands with Silicon/Epoxy Potting Solution

Value Flex IP66 G3

Original LED CCT is 2700k

Shift to 3300k after silicon potting

Same CCT on 2700k even after IP66 protection

## Disadvantages

- Final CCT out of control, obvious color deviation
- Warm color unavailable

## Advantages

- Final CCT of finished goods under control
- Full range of CCT, 2700k/3000k/4000k/6500k

# Benchmark

## --- Optical Performance

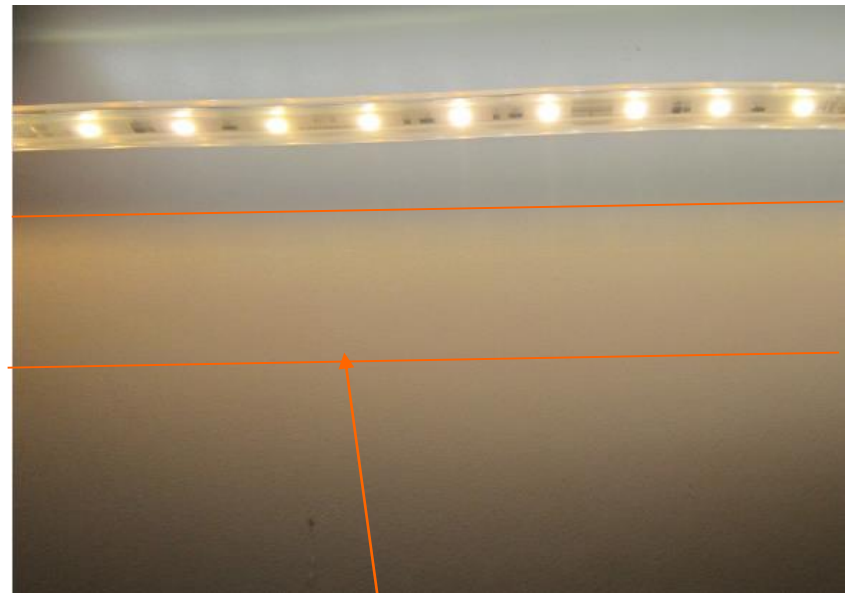

Other Brands with Silicon/Epoxy Potting Solution

### Disadvantage

- Obvious “Yellow Line”
- Poor visual performance

Value Flex IP66 G3

### Advantage

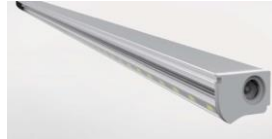

- Smooth light transition, perfect light effect

# BU DS LECV Rigid

## --- Portfolio Segmentation

To be launched  
at end of 2017

LR Freezer

M2

- 5 years warranty
- CRI>80 & CRI>90
- Asymmetric Optical Design
- One solution to meet vertical and horizontal application
- Embedded constant current IC
- IP65 with conformal coating
- CE

LR Slim Diffuse

M3

- 3 years warranty
- CRI>80
- Seamless light output but no hot dots
- Ultra slim size for indirect shelf lighting
- Embedded constant current IC
- Plug and play with Pre-mounted connectors
- Easy installation and maintenance with Magnet and clips
- CE

Shelf Lighting

Freezer Light

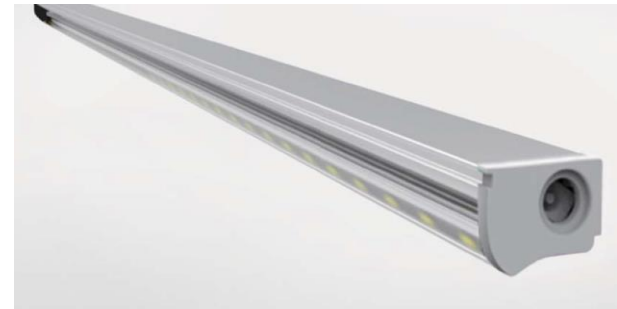

# LINEARLight Rigid Freezer

## Product Features

**A slim solution to meet vertical and horizontal freezer as edge lighting!**

### Product description

- Beam Angle: 25°
- Lumen output: 1100 lm/m
- Working voltage: 24 VDC
- Power: 10 W/m
- Length available: 600mm, 1200mm, 1700mm
- IP65 protect with conformal coating
- CCT: 4000k, 6500K, 076

### Product benefits

- **Asymmetric optical to direct the light to required areas for good uniformity**
- **High reliability with additional conformal coating from moisture damage**
- **Kinds of accessories for easy installation and maintenance**
- **SDCM<3**

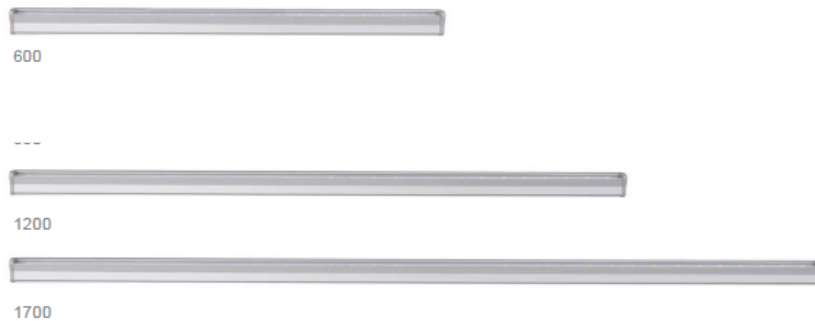

### Applications

- Vertical Freezer
- Horizontal Cooler

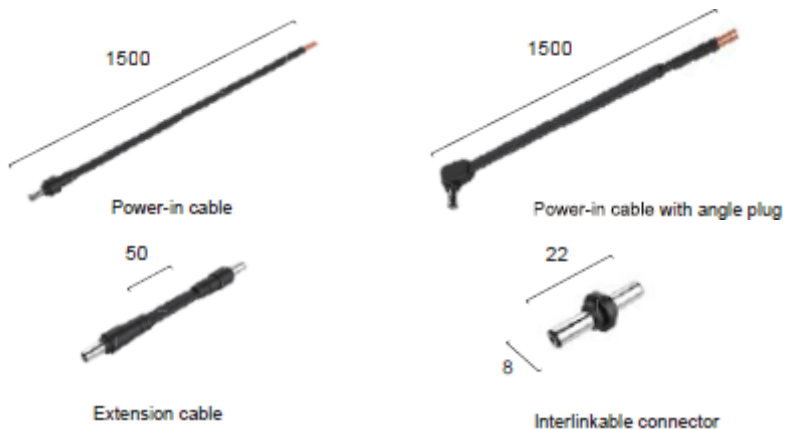

# LINEARLight Rigid Freezer

## --- Product and Accessories

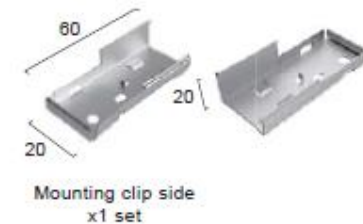

### LR Freezer Modules

### Connector System

### Clip System

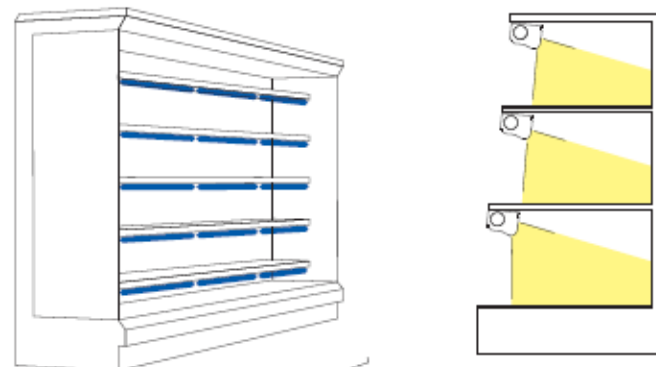

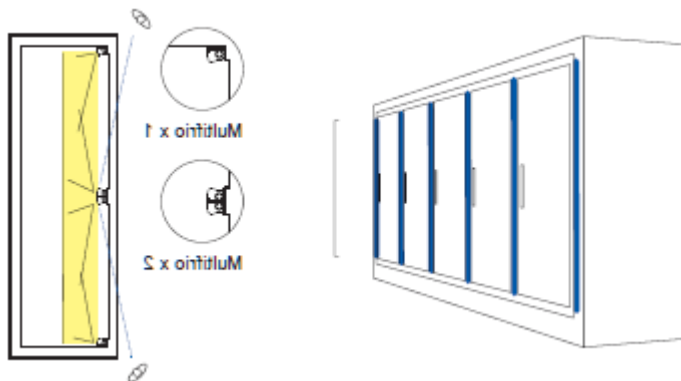

# LINEARLight Freezer

## --- Application

Vertical Application

Horizontal Application

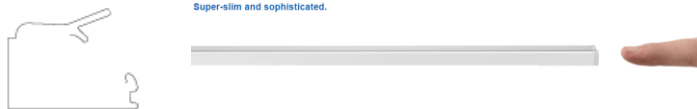

# LINEARLight Freezer

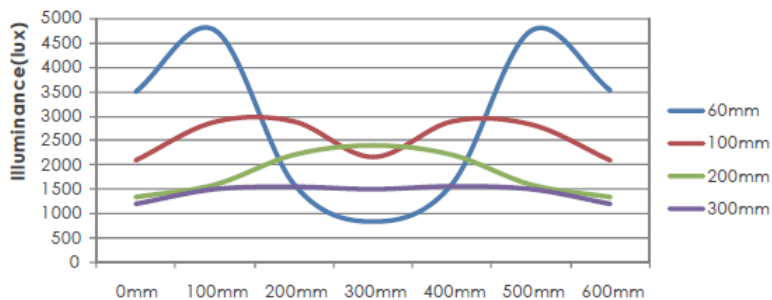

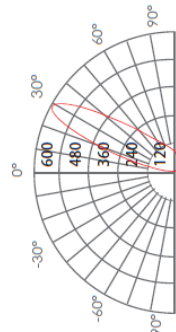

## --- Benchmark for Vertical Application

### OSRAM LR Freezer

- Higher brightness can be achieved
- More convenient for stock up

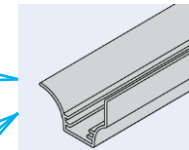

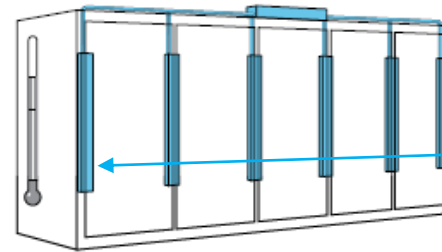

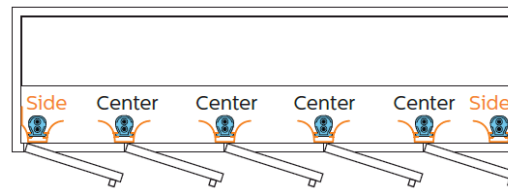

Vertical application

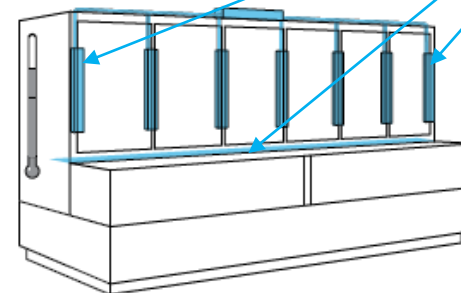

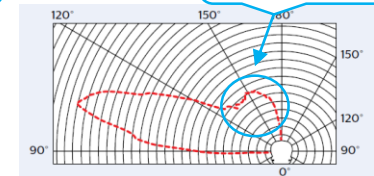

### Competitor P

- Additional track as heatsink
- lower efficiency on side

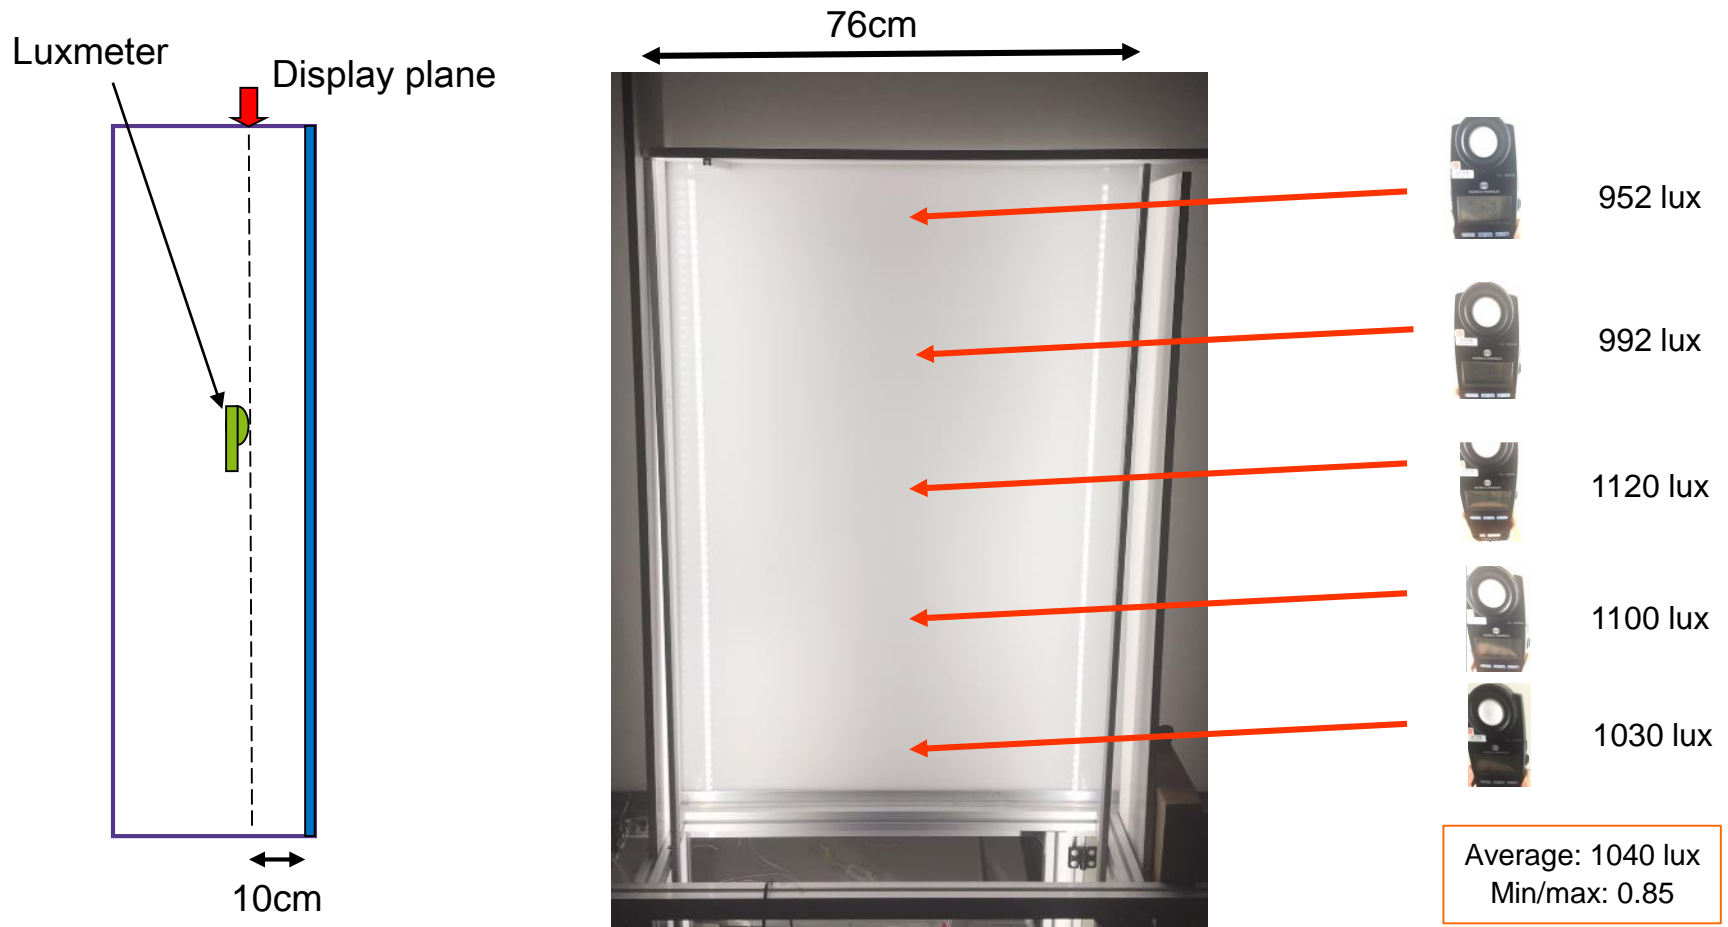

Reflected light is wasted

# LINEARLight Freezer

## --- Measurement Data for Vertical Application

Illuminance levels are measured at the center of the case , with the lux sensor placed horizontally, facing outwards.

- No contribution from ambient light.

- Illuminance value indicated are based on a 840,1700mm module.

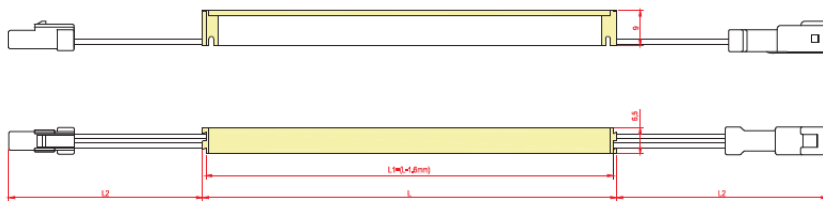

# LINEARLight Rigid Slim Diffuse

## --- Product and Accessories

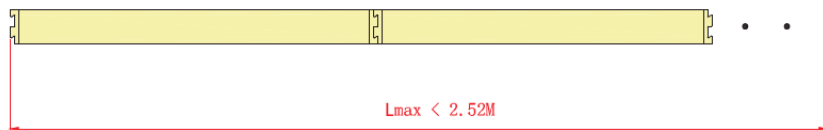

To be launched  
at end of 2017

### LR Slim Modules

Structure Dimension

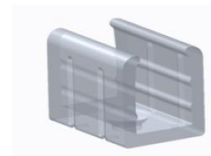

Seamless Connection

### Connector System

### Clip System

# LINEARLight Rigid Slim Diffuse

## Product Features

**An ultra slim and seamless light solution for indirect shelf lighting!**

### Product description

- Beam Angle: 120°
- Lumen output: 800 lm/m
- Working voltage: 24 VDC
- Power: 15 W/m
- Length available: 600mm, 1200mm
- IP20 protect
- CCT: 2700k, 3000k, 4000k, 6500K

### Product benefits

- **Seamless output, no hot dots**
- **Easy connection and maintenance with pre-mounted connectors**
- **Single IC per CCT**
- **SDCM<4**
- **Flam proof**

### Applications

- Cove Lighting
- Shelf Lighting

# LINEARLight Rigid Slim Diffuse

## Product Features

---

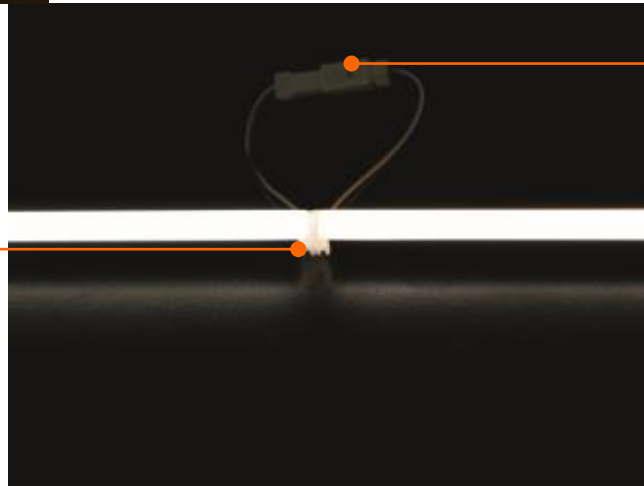

### Quality Design

- Ultra slim for embedded shelf lighting
- IC solution for stable lumen output and high efficiency

### Professional Light

- Seamless output with diffused cover and high intensity of LED
- No shadow even at connection joints thanks to transparent end cap

### Flexibility

- Optional clips and magnet for easy installation
- Pre-mounted reliable connector for quick maintenance

# PrevaLED® COIN DC COB G1

## COIN111 COB G1 – Truly Replacement of CDM-T 70W lamp

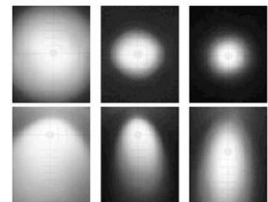

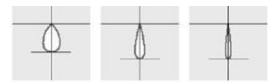

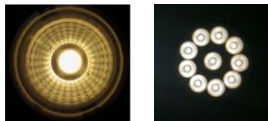

# PrevaLED® COIN DC COB G1

## COIN50 COB G1 – Truly Replacement of CDM 35W lamp

# PrevaLED® COIN DC COB G1

## Value Proposition

I. Single Light Source  
without Multi-shadow

II. High Performance  
& Quality of Light

COIN  
DC COB G1

III. Full Range of  
Beam Angles and Flux  
Output

IV. Comply with  
Conventional Lamp  
Form Factor

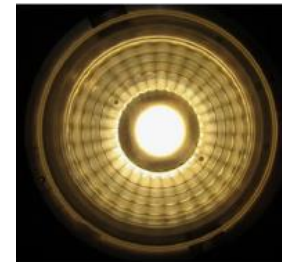

# PrevaLED® COIN DC COB G1

## I. Single Light Source without Multi-shadow

- **Uniform Light Emitting Surface**
  - ✓ Adopted metal-substrate COB LED solution
  - ✓ Polycarbonate lens with built-in glare control
- **Appearance similar to conventional lamps**
  - ✓ Halogen and HID lamp
  - ✓ Precise optical beam pattern control

Single Optic

Multi Optic

- Concave surface achieve better control of glare than original flat lens panel used in COIN DC G2
- Cut off light at larger angle ( $> \pm 75^\circ$ ), obvious effect at low-ceiling installation

# PrevaLED® COIN DC COB G1

## II. High Color Rendering Performance

- **Comply with IES TM30-15**
  - ✓ New and more accurate definition beyond CRI
  - ✓ Color Fidelity (R<sub>f</sub>, 0-100)
  - ✓ Color Gamut (R<sub>g</sub>, 60-140)
- **High Fidelity of COIN CRI90 series**
  - ✓ **R<sub>f</sub> 90, R<sub>g</sub> 100**
  - ✓ CRI >90, R<sub>9</sub> for deep red >50

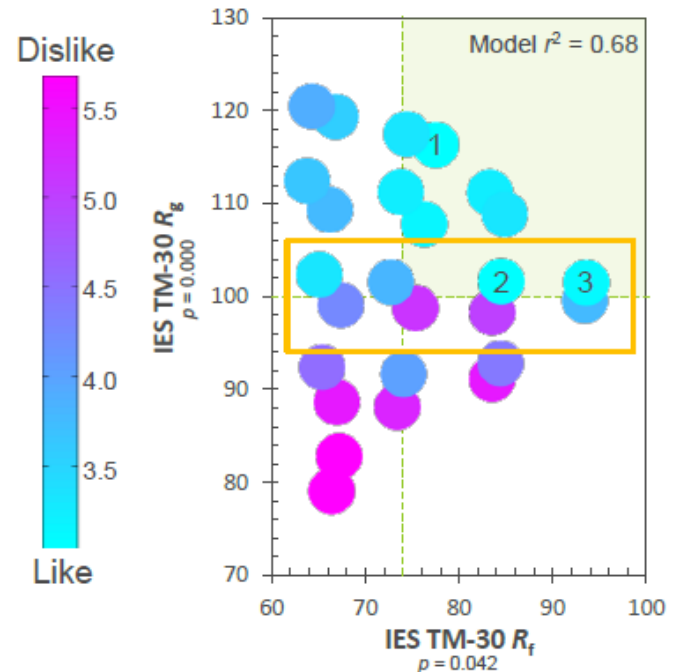

TM30 ("99" different colors)

CRI (8 different colors)

Conventional CRI only represent averaged color-rendering performance of eight different colors; in comparison, TM-30 is based on 99 colors chosen from various objects around our daily lives.

# PrevaLED® COIN DC COB G1

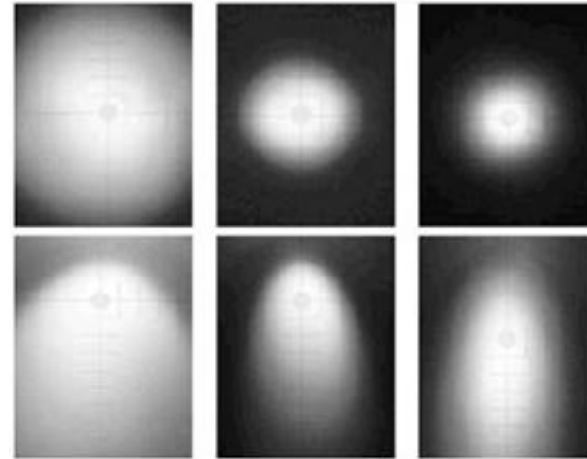

## III. Full Range of Beam Angles and Flux Output

### Flexible Beam Angle Options

- ✓ Narrow Beam (15 – 20°)
- ✓ Medium Beam (24 – 30°)
- ✓ Wide Beam (40 – 60°)

### Wide Range of Flux Output

- ✓ COIN50 980-1500lm
- ✓ COIN111 1650-4870lm

***Provide the highest lighting design freedom***

	COIN50 DC COB G1			COIN111 DC COB G1		
FWHM	900lm	1200lm	1400lm	1800lm	2800lm	4300lm
15°	•			•	•	
24°	•	•	•	•	•	•
40°	•	•	•	•	•	•
60°						•

900lm and 1800lm are **CRI90** models, others are **CRI80**. Special request of CRI90 on other model can be supported, flux output will decrease by 10-15%.

## IV. Comply with Conventional Lamp Form Factor

### ▪ COIN 50 DC COB G1

Product Range	COIN50 COB G1	COIN 50 G2	Halogen MR16 (GU5.3)	CDM MR16 (GX10)
Type	LED Module	LED Module	Conventional	Conventional
Photo				
Dimension (mm)	D50 x H50	D50 x H50	D51 x H50.5	D51 x H62

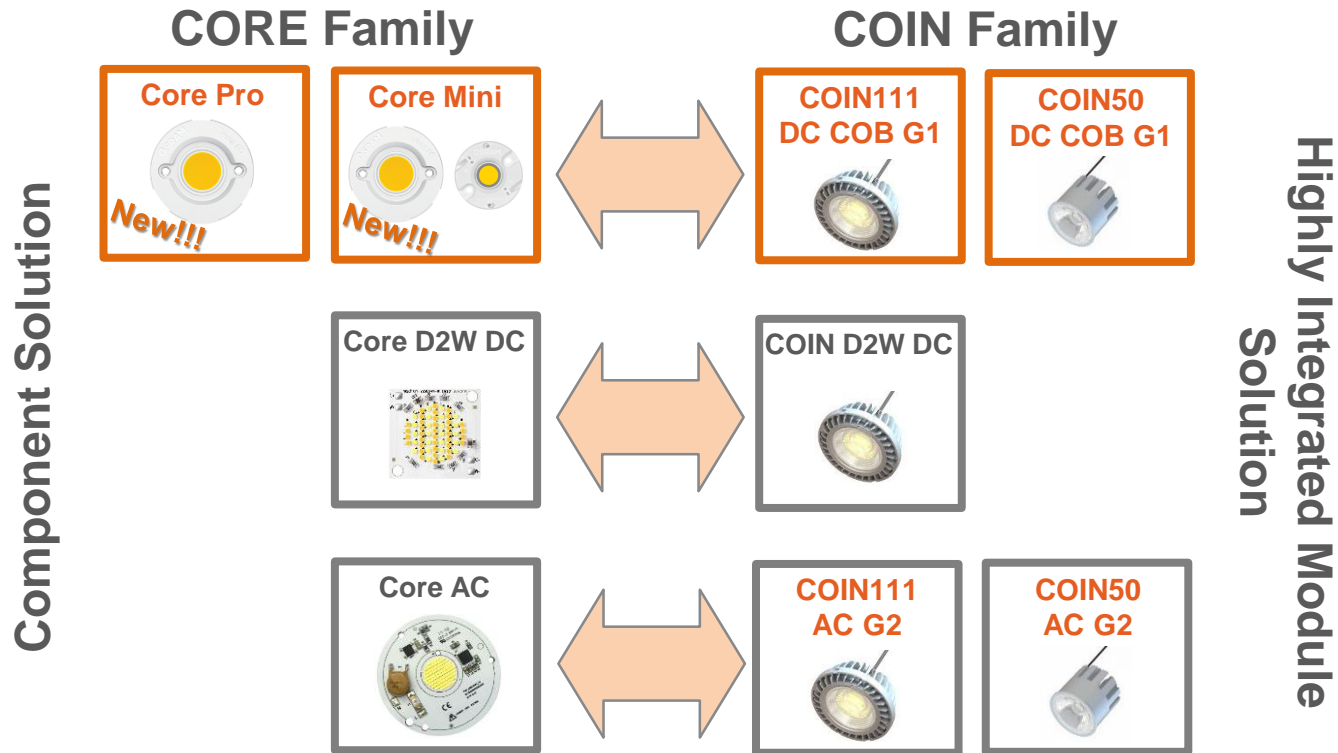

### ▪ COIN 111 DC COB G1

Product Range	COIN111 COB G1	COIN111 G2	Halogen AR111 (G53)	CDM-R111 (GX8.5)
Type	LED Module	LED Module	Conventional	Conventional
Photo				
Dimension (mm)	D111.7x H52	D111.7x H46	D111 x H67	D110 x H95

Form factor highly compatible with halogen and CDM lamps, CN111 is even more compact than conventional lamps in terms of height (52mm vs. 67-95mm).

# PrevaLED® CORE Pro / Mini

## Value Proposition

IES TM30-15

I. High Performance  
& Quality of Light

II. Flexible Holder  
Options for Assembly

Core  
Pro & Mini

III. Single LES with  
Wide Flux Range to  
Simplify Optics

IV. Standard  
Package Design to  
Leverage Ecosystem

# PrevaLED® Core Pro / Mini

## I. High Performance and Quality of Light

### ■ Deliver High Efficacy

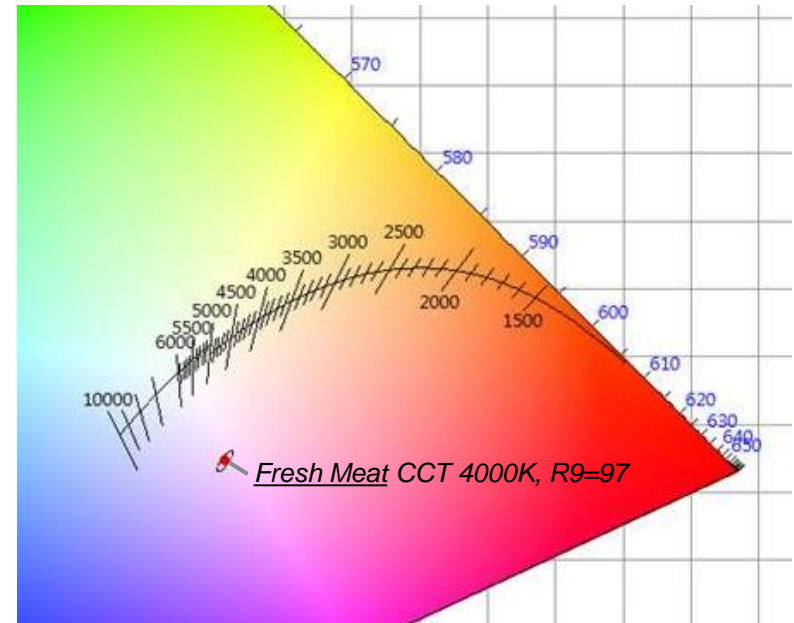

- ✓ Min CRI 80 → 145-160lm/W
- ✓ Min CRI 90 (TM-30) → 120-135lm/W

### ■ Consistent Performance

- ✓ MacAdam Ellipse < 3SDCM
- ✓ Lifetime L80B50 > 50khrs
- ✓ Standard offering 830, 835, 840; 927, 930, 935

### ■ Premium Color (under development)

- ✓ Brilliant Vivid (Below BBL)
- ✓ Fresh Meat (*engineering sample available*)
- ✓ Bakery (bread / cookies / bacon)
- ✓ Seafood (fish / sashimi / oyster)
- ✓ Jewelry (gold / silver / titanium)

# PrevaLED® Core Pro / Mini

## I. High Performance and Quality of Light

### ■ Comply with IES TM30-15

- ✓ New and more accurate definition beyond CRI
- ✓ Color Fidelity (Rf, 0-100)
- ✓ Color Gamut (Rg, 60-140)

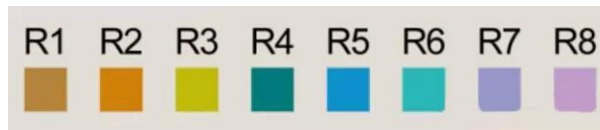

### ■ High Fidelity of CRI90 series

- ✓ Rf 90, Rg 100
- ✓ CRI >90, R9 for deep red >50

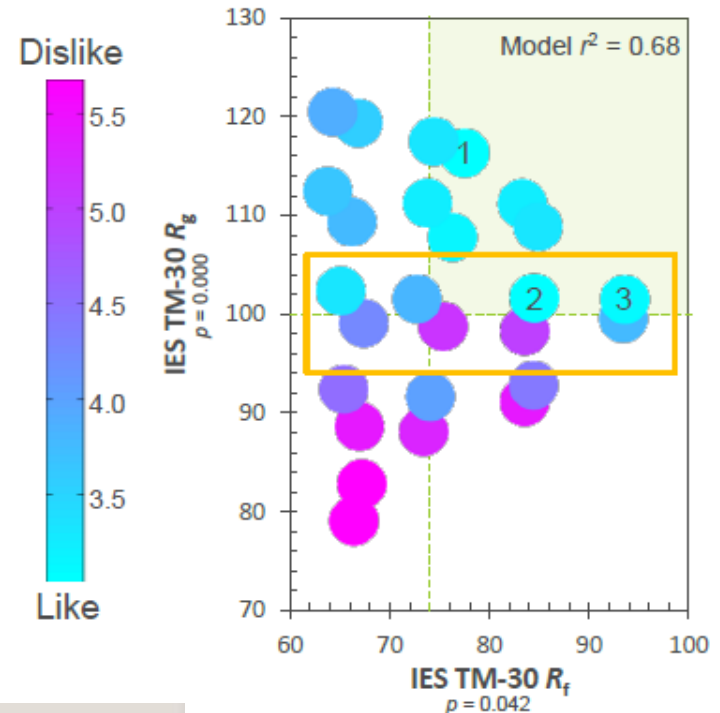

#### TM30 ("99" different colors)

#### CRI (8 different colors)

Conventional CRI only represent averaged color-rendering performance of eight different colors; in comparison, TM-30 is based on 99 colors chosen from various objects around our daily lives.

# PrevaLED® Core Pro / Mini

## II. Flexible Holder Options

### ■ Option 1: Solderless Type

- ✓ Simple and Reliable assembly process
- ✓ D50 Zhaga compliant holder, D36 integrated with optical interface (pin-insert)

### ■ Option 2: Mechanical Type

- ✓ Cost-Effective assembly method
- ✓ Integrated with optical interface (twist-and-lock)

### ■ Proprietary Holder Design

- ✓ Compatible with existing optics ecosystem
- ✓ Embossed with “OSRAM” logo
- ✓ Flexible COB + Holder combination to meet different customer needs

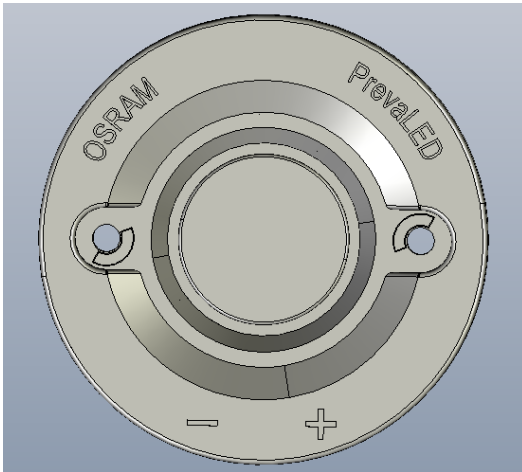

Holder Type	Pro LES19	Mini LES 14.5	Mini LES9.8	Basic LES 22	Basic LES 13	Basic LES 9	Basic LES 6
Solderless	D50	D36	D36				
Mechanical	D50 (A)			D50 (B)			
		D44 (A)			D44 (B)		
			D35 (B)			D35 (A)	D35 (A)

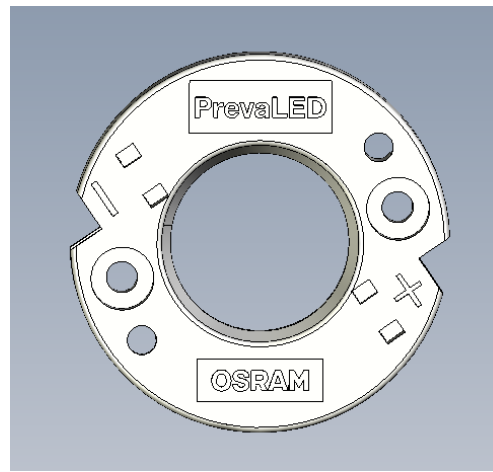

# PrevaLED® Core Pro / Mini

## II. Flexible Holder Options – Solderless

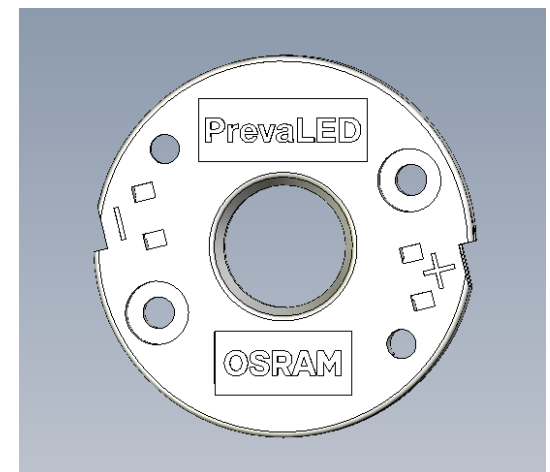

**D50 (for Pro)**

**D36 (for Mini)**

**D36 (for Mini)**

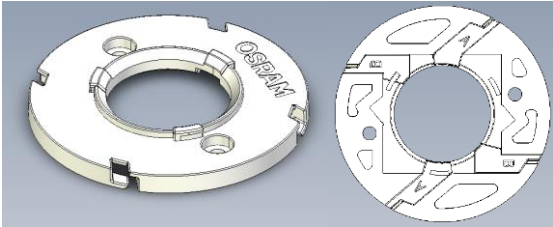

Holder Type	Pro LES19	Mini LES 14.5	Mini LES9.8	Basic LES 22	Basic LES 13	Basic LES 9	Basic LES 6
Solderless	D50	D36	D36				

- ✓ Reliable holder assembly solution
- ✓ Separable COB + Holder assembly
- ✓ Pock-in wiring, no need to do hand-soldering
- ✓ D36mm holder for compact fixture design
- ✓ D50 holder is Zhaga-compliant, D36 is integrated with optical interfaced (pin-insert) and compatible with Shinland standard optics (<http://www.shinland.com.cn/>)

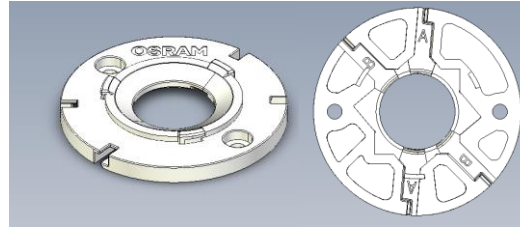

# PrevaLED® Core Pro / Mini

## II. Flexible Holder Options – Mechanical

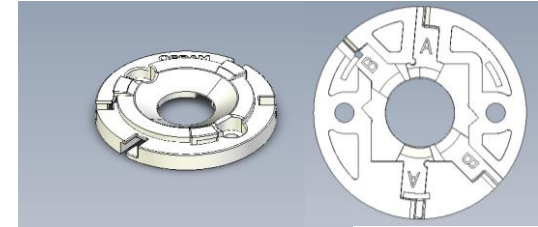

**D50**

**D44**

**D35**

Holder Type	Pro LES19	Mini LES 14.5	Mini LES9.8	Basic LES 22	Basic LES 13	Basic LES 9	Basic LES 6
Mechanical	D50 (A)			D50 (B)			
		D44 (A)			D44 (B)		
			D35 (B)			D35 (A)	D35 (A)

- ✓ Cost-effective holder solution
- ✓ Hand-soldering required
- ✓ D35mm holder for compact fixture design
- ✓ Integrated with twist-&-lock optical interface, compatible with Darkoo standard optics (<http://www.darkoo.cc/en/index.html>)

# PrevaLED® CORE Pro / Mini

## III. Wide Range of Flux Output from the same LES

---

- **Single LES Size for Each Series**
  - ✓ Core Pro: 3000 / 4000/ 5000lm (LES 19mm)
  - ✓ Core Mini: 2000 (LES 9.8mm), 3000 / 4000lm (LES 14.5mm)
  - ✓ Simplify optical solutions for various fixture-wattage
- **Provide High Flux Density options (Pro 5000, Mini 4000)**
  - ✓ Suitable for the optical requirement of High Central Intensity (CBCP)
  - ✓ Easier to minimize fixture design

Design Example: COIN111 DC COB G1

1800lm and 2800lm (different COB having the same LES)  
can share the same optics to achieve 15°, 24°, 40°

# PrevaLED® Core Pro / Mini

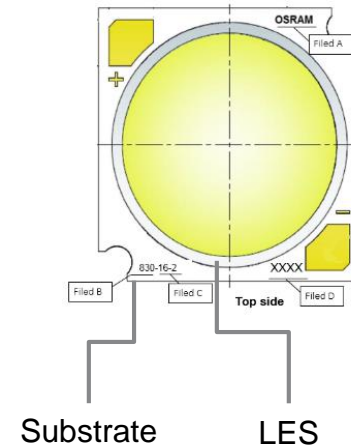

## IV. Comply with Industrial Standard Package

### Standard Package Design

- ✓ Substrate Size and LES follows industrial standard
- ✓ Zhaga-Compliant LES and holder design

### Benefit to COB Users

- ✓ Share the same ecosystem (holder, optics, driver)
- ✓ Shorten the design lead-time
- ✓ Drop-in replacement

Substrate size	Core Pro	Core Mini	Core Basic
13.35x13.35mm			LES 6.3mm
13.50x13.50mm		LES 9.8mm	
15.85x15.85mm			LES 8.9mm
17.85x17.85mm			LES 12.6mm
19.00x19.0mm		LES 14.5mm	
23.85X23.85mm	LES 19mm		
27.35x27.35mm			LES 22mm

# OSRAM Lighting Management System

Limitless lighting control at your fingertips

Rock Chen

**OSRAM**

# Diversified needs of lights

LMS is a door opener, spec locker, differentiator against competitors!

- LMS is a solution-based offer according to customer's needs
  - We help you to jump out from price war by comparing component features only
  - We provide added value and services that allows premium pricing of total system offers

Energy saving

Comfort

Scenes

Working efficiency

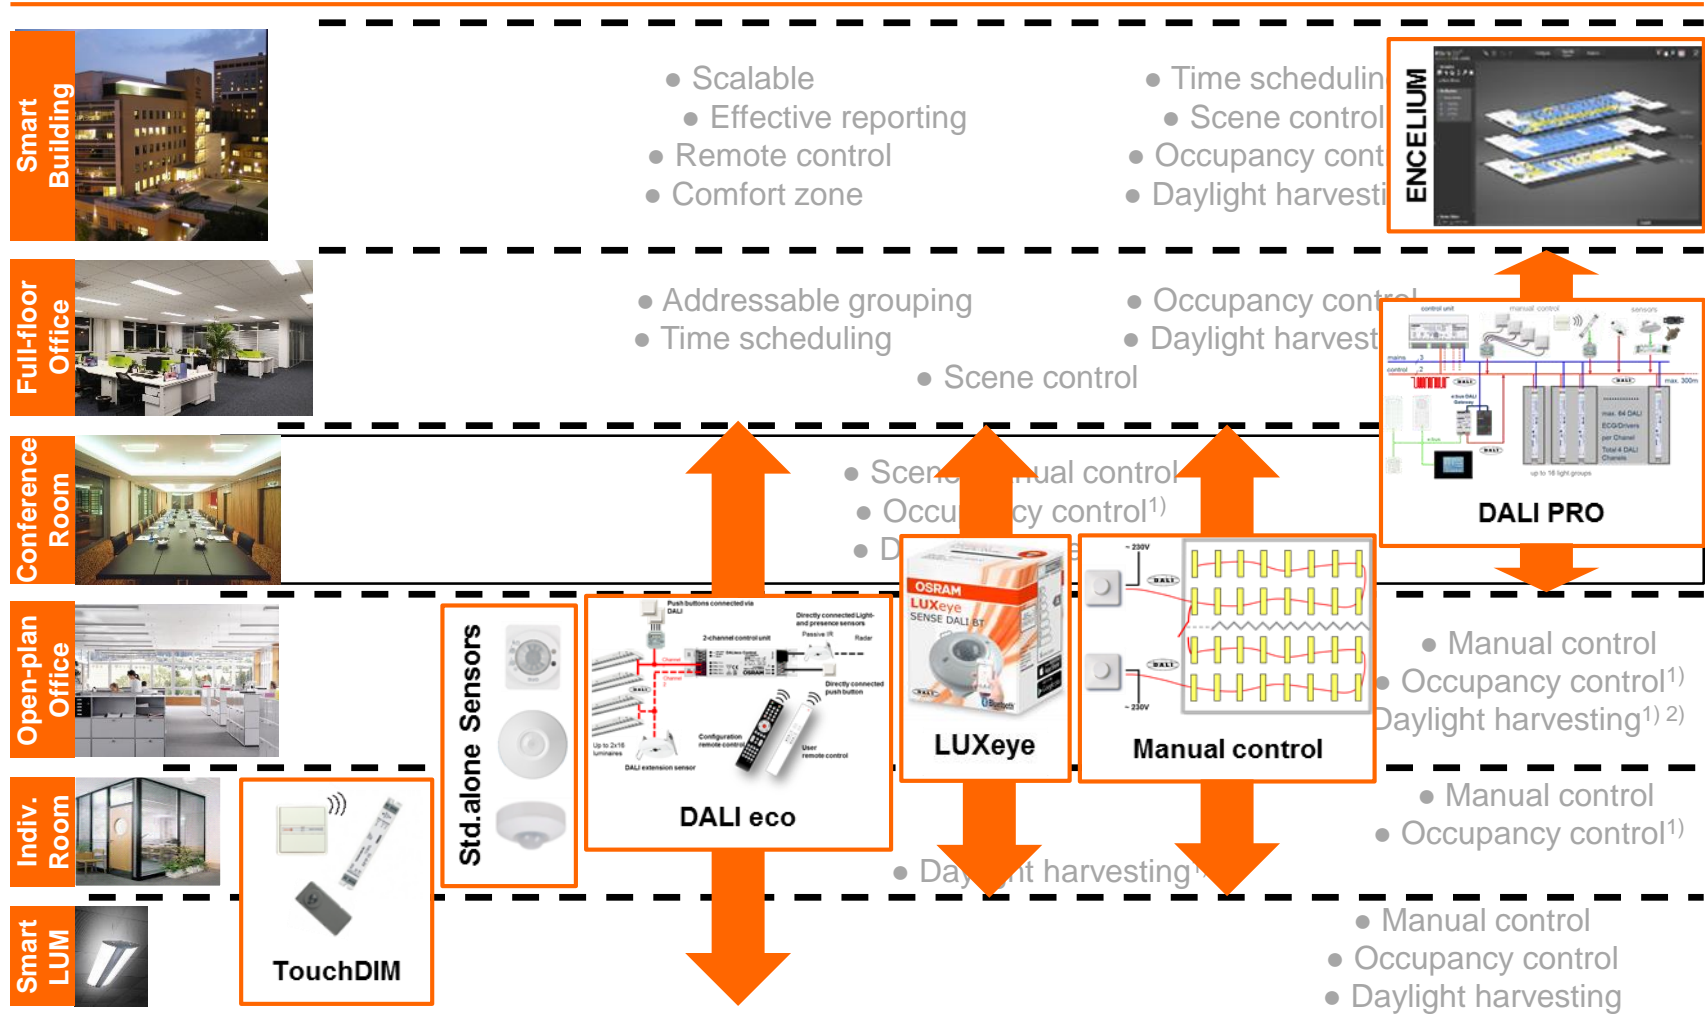

Ambient

**Light management system offers you the “Right Light”**  
– in the right amount, at the right place, at the right time

# OSRAM offers LMS solution for all application scales

## Application requirement and system matrix

1) Not for MCU 2) Not for "Vision" sensor

Daylight

# B/S/H Chuzhou Warehouse lighting control

## Highbay sensors + DUO Sensor

Project Location:

Chuzhou, China

Application:

Controlled area up to 10,000 m<sup>2</sup>

Lightpoints 800+ LED highbay fixtures

- Movement detection at 9.6m installation height
- Daylight harvesting, switch off @150lux

Key Products:

- Highbay sensor 400+ pcs
- DUO sensors

Key Success Factor:

- Reliable movement detection at Highbay
- Maximum energy saving by switching off artificial lights when the daylight is sufficient
- Good service in design-in stage and on site installation support

**HIGH BAY**

**DUO**

# MCU/PCU

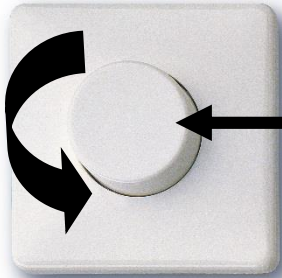

Simple manual dimming solution for comfort lighting

Jacob Ye

# Manual Control Unit

## Rotary dimmer and Push Button dimmer

### MCU - rotary dimmer

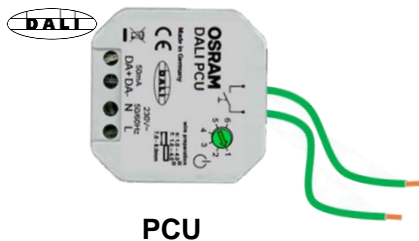

DALI MCU TW  
DALI MCU  
DIM MCU (1-10V)

- ✓ On/off – press
- ✓ Dimming – rotate
- ✓ Turnable White(TW) – Press + rotate

Standard  
push button

### Push button Control Unit

PCU

- ✓ On/off – Short press
- ✓ Dimming – Long press
- ✓ Save light level – double press

- Simple, easy solution for plug & play control of lighting. No commissioning is required.
- The DALI PCU or MCU are expandable. Max. 4 push buttons or knobs for controlling up to 100 luminaires in parallel connection
  - Suitable for individual office and meeting rooms

## DALI MCU TW (tunable white / DT8)

Individual setting of color temperature and dimming level

plug & play

**OSRAM**

# DIM MCU

## Kunming Anthura Horticulture – Kunming, China

- Project Location: Kunming, China
- Developer: Kunming Anthura (安祖花公司)
- Lighting Designer: Anthura headquarter in the Netherlands
- Application: Floriculture greenhouse
- Key Products: QT 1X58 DIM, 11,000pcs  
DIM MCU, 500pcs
- Success Factor: Plug-and-play dimming according the required LUX level.  
Reliable quality after trail run for half a year

# LUXeye

Intelligent light control with smart phone connection

Jacob Ye

**OSRAM**

# LUXeye Lighting Controls

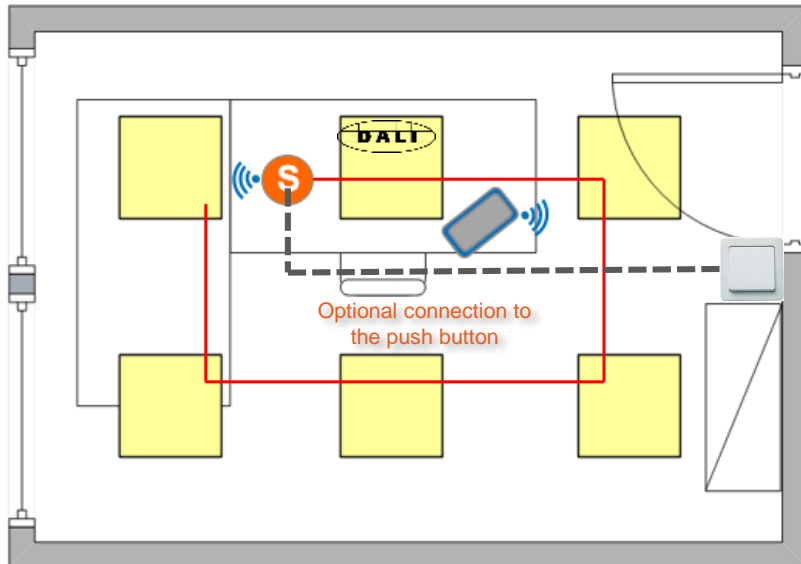

## Easy to install

NO COMMISSIONING  
NEEDED!

### READY out of the box:

- Connect the DALI or On/Off luminaires to the sensor
- Power on the system
- Automatically starts operating after 30sek.
- Auto calibrating (80% of max. light output for DALI, and 500Lux for On/Off)

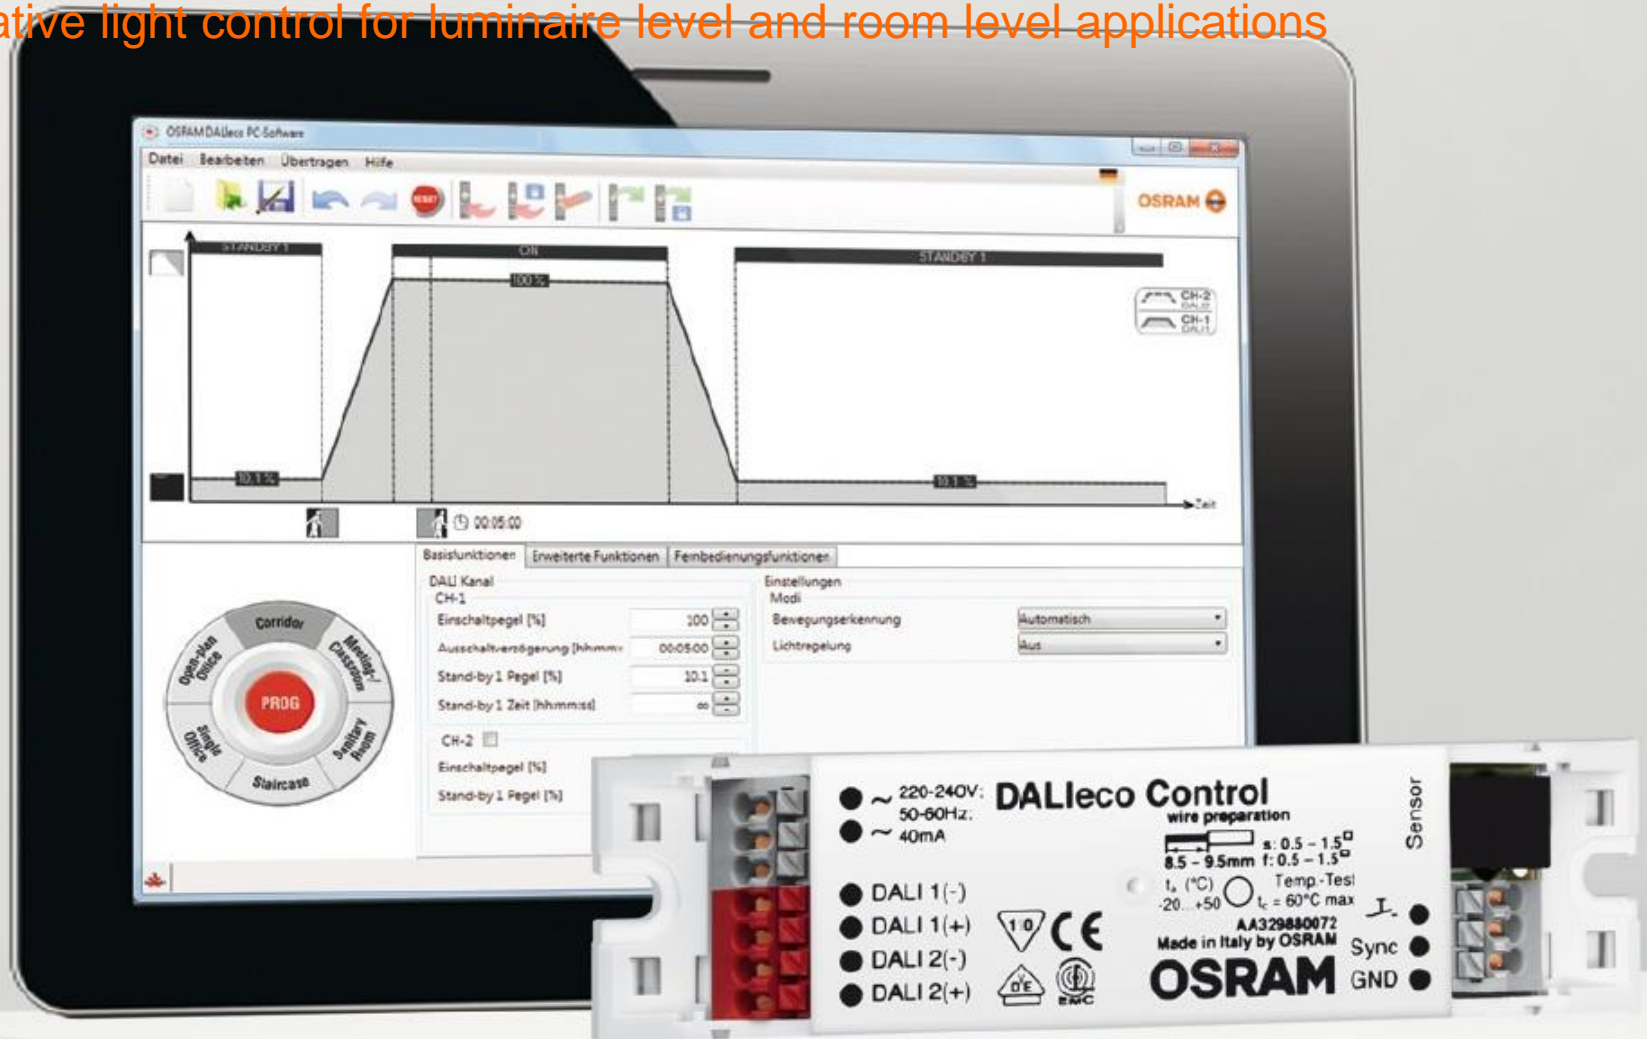

Max. 20 DALI devices supported by one LUXeye DALI

### Control your light via Smartphone

- App available for Android and IOS
- Switch and dim your light at your desk
-  Bluetooth technology for simple pairing.  
(As simple as connecting a headset!)
- No additional gateway needed!
- No additional hurdles (e.g. customer IT- Security)

# DALieco System – Configuration by mouse click

Innovative light control for luminaire level and room level applications

# DALleco System

## Target applications

**DALleco** is an easy to use lighting control system with fast investment payback for various indoor applications by providing occupancy control, Daylight Harvesting, scene control and manual control for 2 broadcasting DALI channels of each max. 16 DALI luminaires per channel.

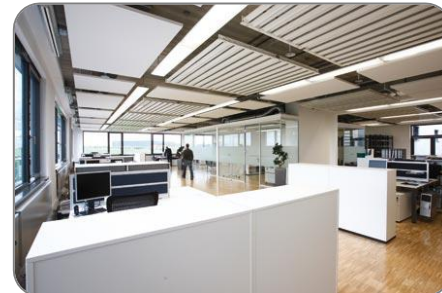

Warehouse

Corridor, stairway

open plan office

Class room  
conference room

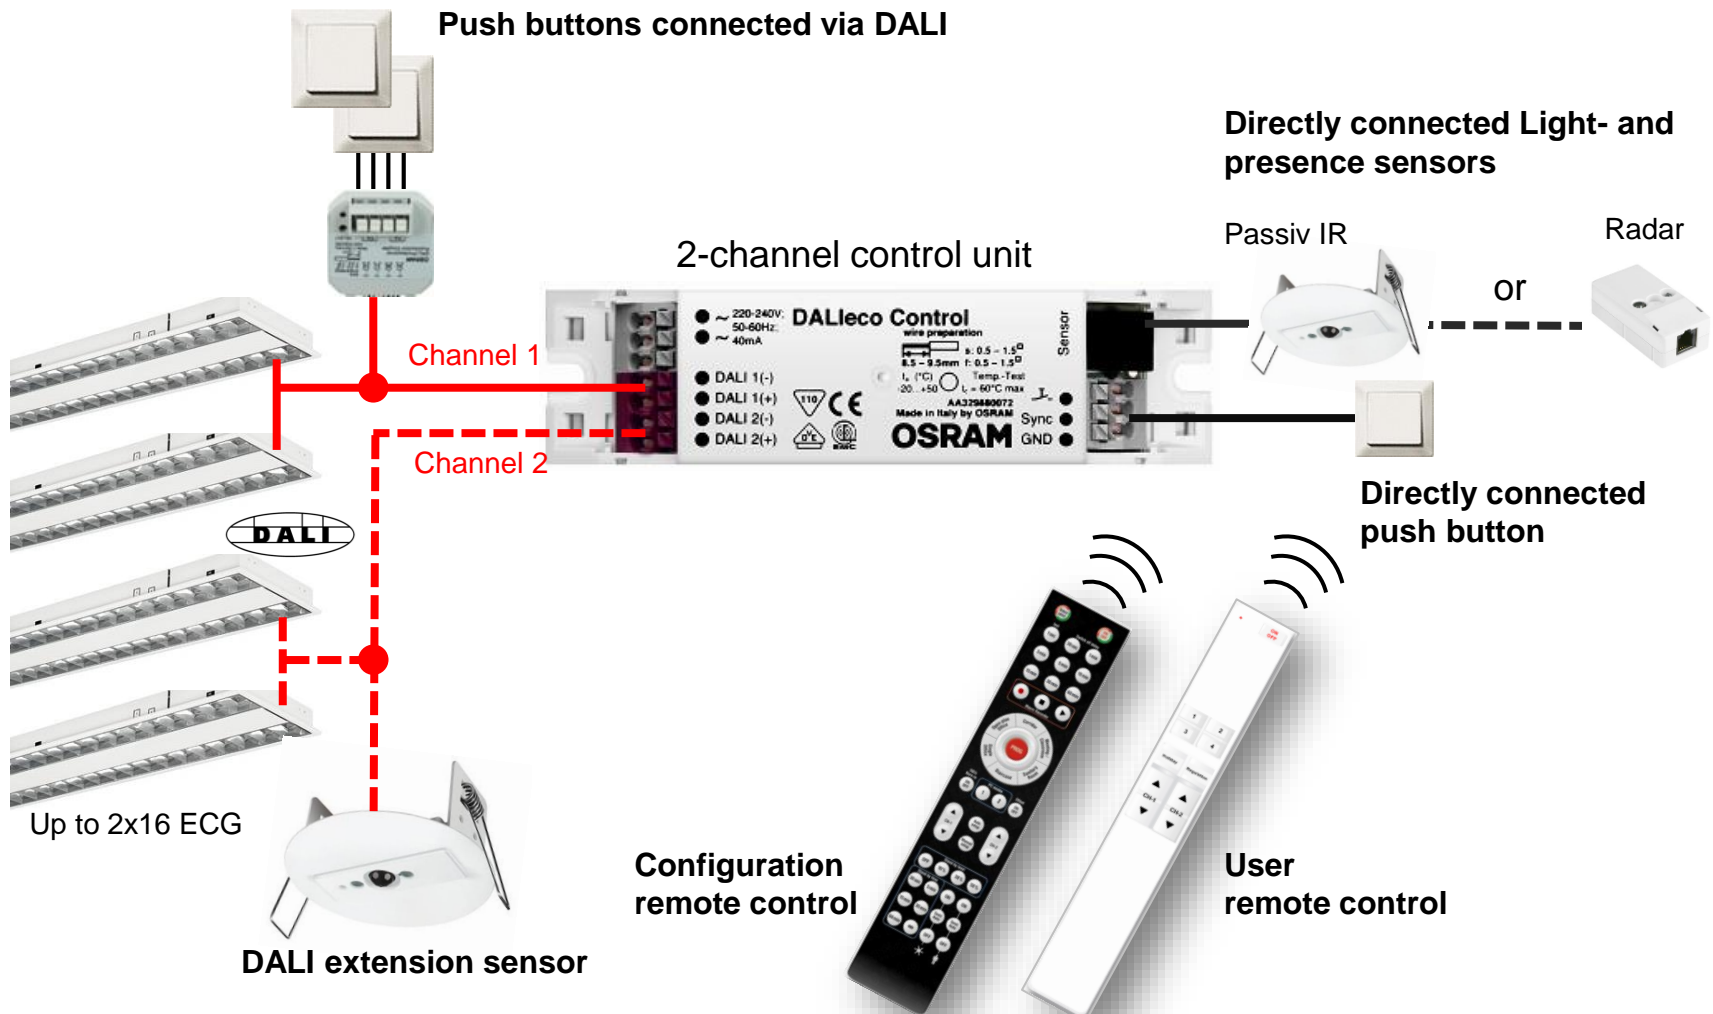

Intelligent  
single luminaires

Single office

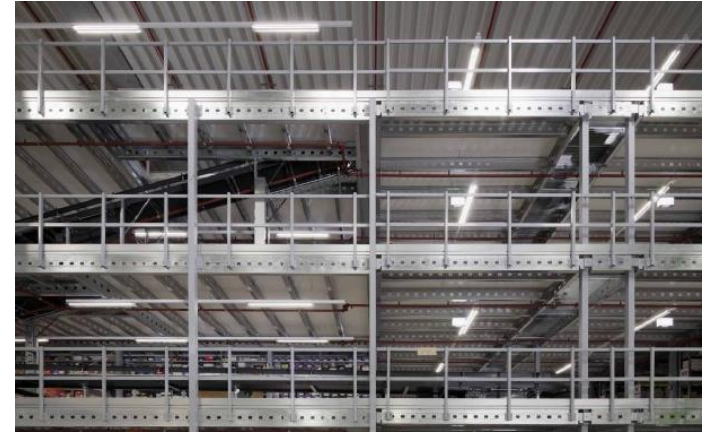

# DALIeco System

## System overview

# Warehouse of Zalando

## DALIEco for aisles occupancy detection

Project Information: 

3rd Pick tower in Erfurt, Germany:

Application:  
Warehouse with > 1200 corridors

Realised by:  
~10.000 QTi DALI DIM ECG + T5  
2.500 OSRAM Radar Sensors + DALIeco controllers

Win Factor:  
Extreme low standby power  
Easy installation & setup

# DALI PROFESSIONAL

Smart lighting system for energy saving and comfort

Jacob Ye

**OSRAM**

# DALI PROFESSIONAL

For energy saving and comfort lighting

**DALI PROFESSIONAL** is a DALI-based addressable lighting control system offers energy saving and comfortable lighting solutions by smart automation and manual control.

## Target applications:

It is a perfect solution for Office, Education, Multifunctional rooms, Hospitality, Retail & Shops, Industry, Warehouse, etc.

## System features:

- ☒ Time scheduled control
- ☒ Occupancy detection and control
- ☒ Daylight Harvesting
- ☒ Scene control / recalling
- ☒ Manual on/off/dimming
- ☒ Addressable/flexible grouping

Office

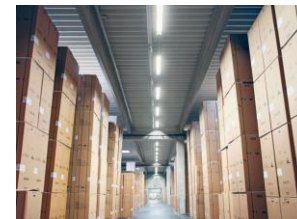

Education

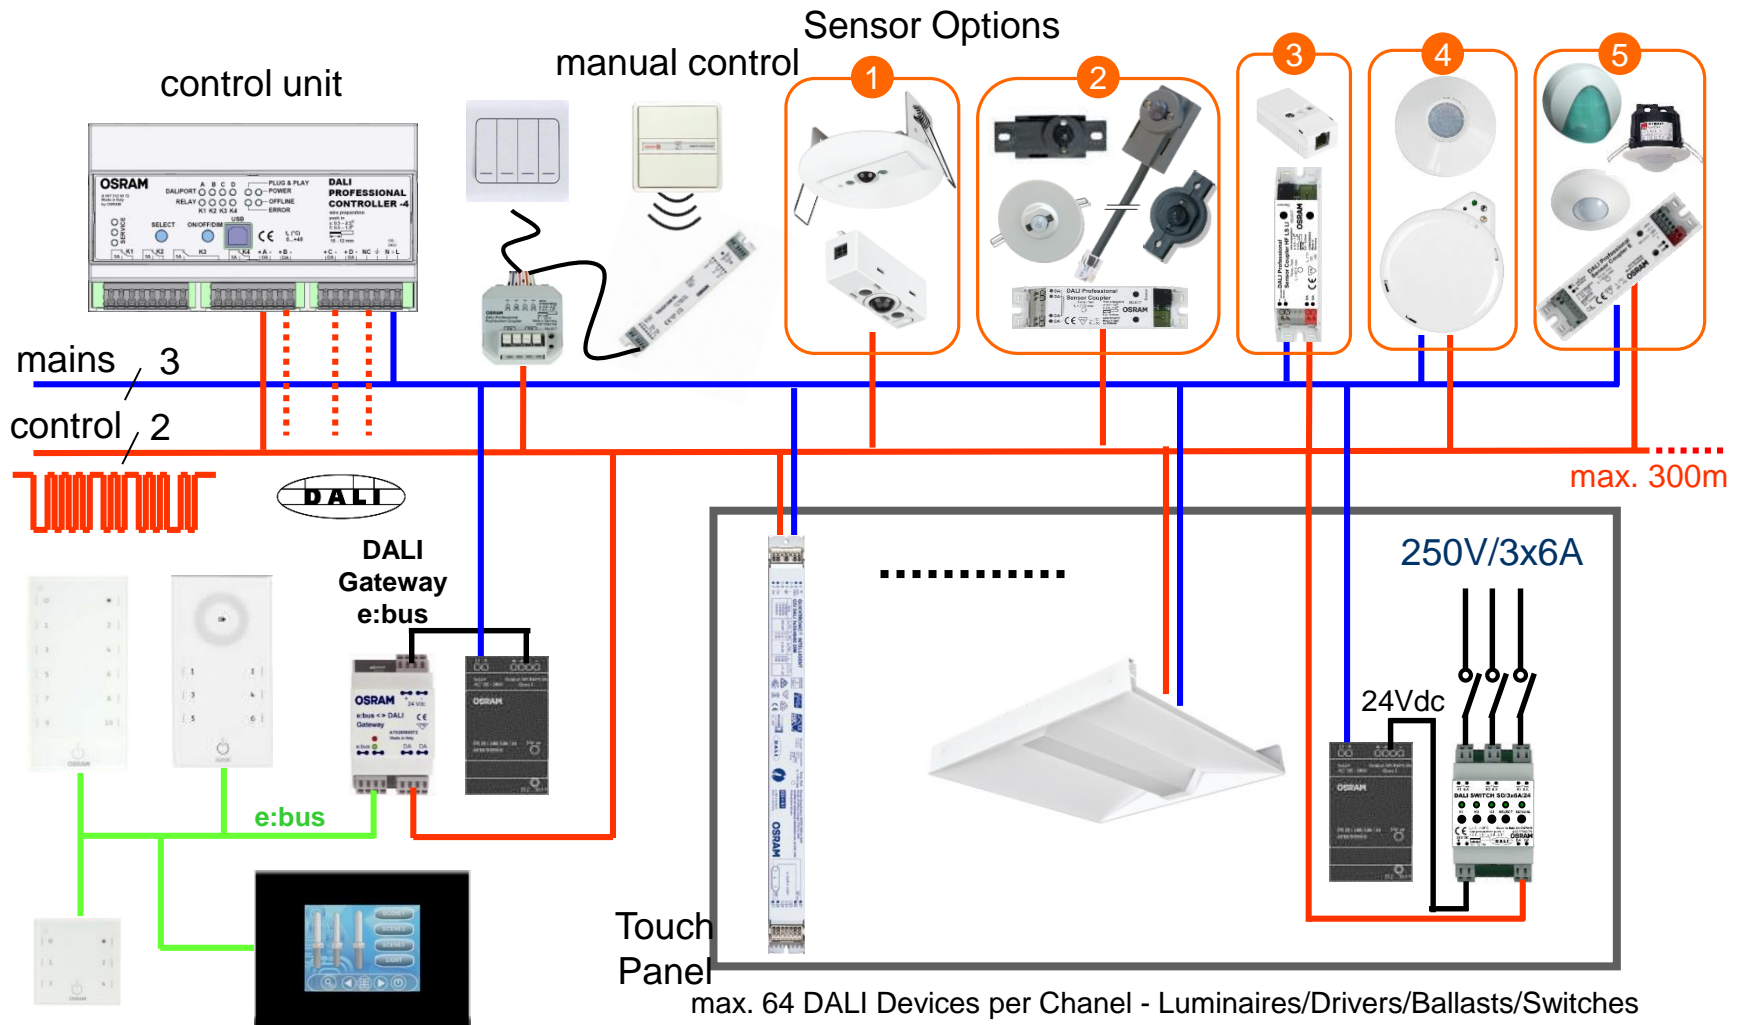

Industry

Warehouse

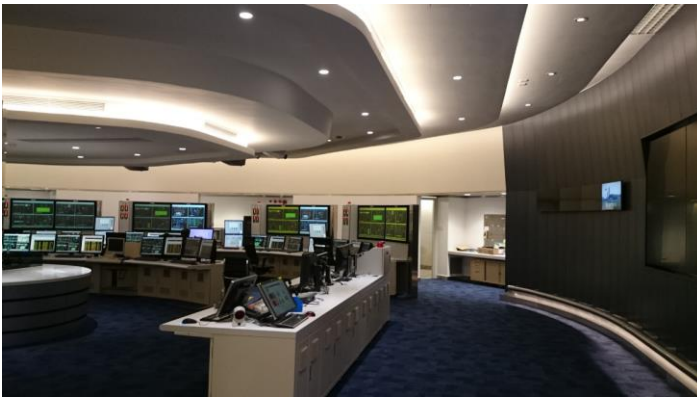

# System Architecture

# DALI PRO for Power station

## Administrative building and Main control room

Project  
Location:

HongKong

OSRAM  
Partners:

Po Sin Sing Kee Engineering Co. Ltd(PSSK)

Application:

Administrative building and Main control room  
Black Point Power Station (CLP group)

Key Products:

- DALI PRO system, Sensors, Push button couplers, DALI switches, Touch Panel

Key Success  
Factor:

- Comfortable light by scene control
- Energy saving by sensors

# DALI PRO for office and Conference rooms

## 16/F-27/F of New World Tower HongKong

- Project Location: HongKong
- Application: Office and conference room
- Key Products:
- DALI PRO system, Sensors, Push button couplers, DALI switches
- Key Success Factor:
- One system for all functions including lighting automations, control of fans, curtains and projector screen.

---

# ENCELIUM

# What are ENCELIUM® Energy Management Systems

ENCELIUM adds more to your light

ENCELIUM is a scalable networked smart lighting control system that enables effective energy saving, powerful reporting of the lighting spaces.

The ENCELIUM Energy Management System (EMS) dynamically responds to the changing characteristics of a building by providing the right amount of light when and where required.

**Scalable to applications**

## Attributes of ENCELIUM

a modern Light Management System

- ✓ Improves Lighting Quality
- ✓ Adapts to user needs
- ✓ Saves Energy
- ✓ Monitors Consumption
- ✓ Increases Building Value

**Lighting innovation  
for 16 years**

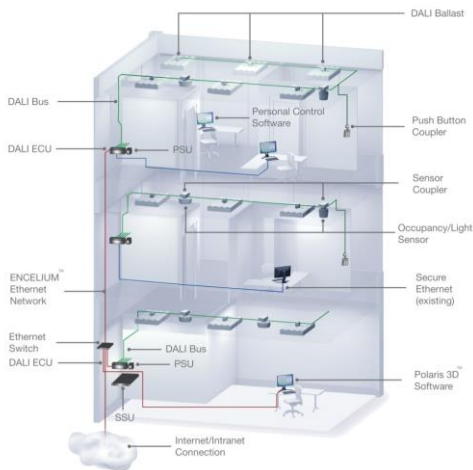

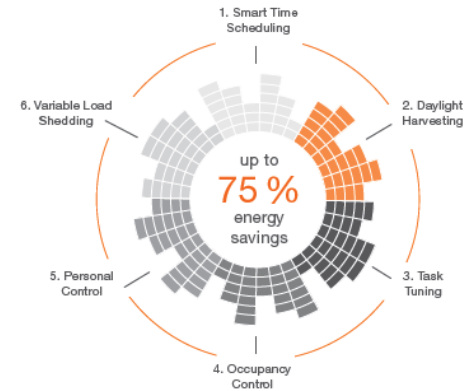

**Over 50 million square  
feet installed worldwide**

# ENCELIUM System – up to thousands of light points

## An intelligent lighting system for Buildings

**SMART TIME SCHEDULING**

**DAYLIGHT HARVESTING**

**TASK TUNING**

**OCCUPANCY CONTROL**

**PERSONAL CONTROL**

**VARIABLE LOAD SHEDDING**

**COMBINED ENERGY SAVINGS**

# ENCELIUM® Energy Management System

## Polaris 3D® Software

---

**Entire building control *at your fingertips* from any web browser**

- Web & Windows based
- View, analyze, configure & report on settings & energy usage
- Intuitive visualization of space & energy usage across entire building
- Easy to use 3D floor plan based navigation

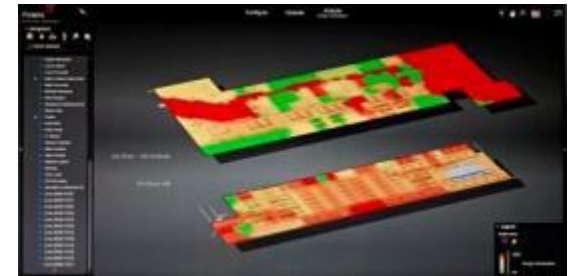

**Lighting on/off status**

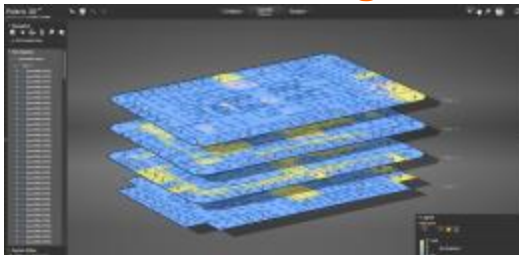

**Zoom to view floor/space**

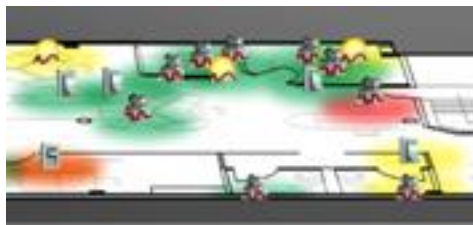

**Energy usage/power density status**

**Multi-floor at a glance**

**Battery Life Indication**

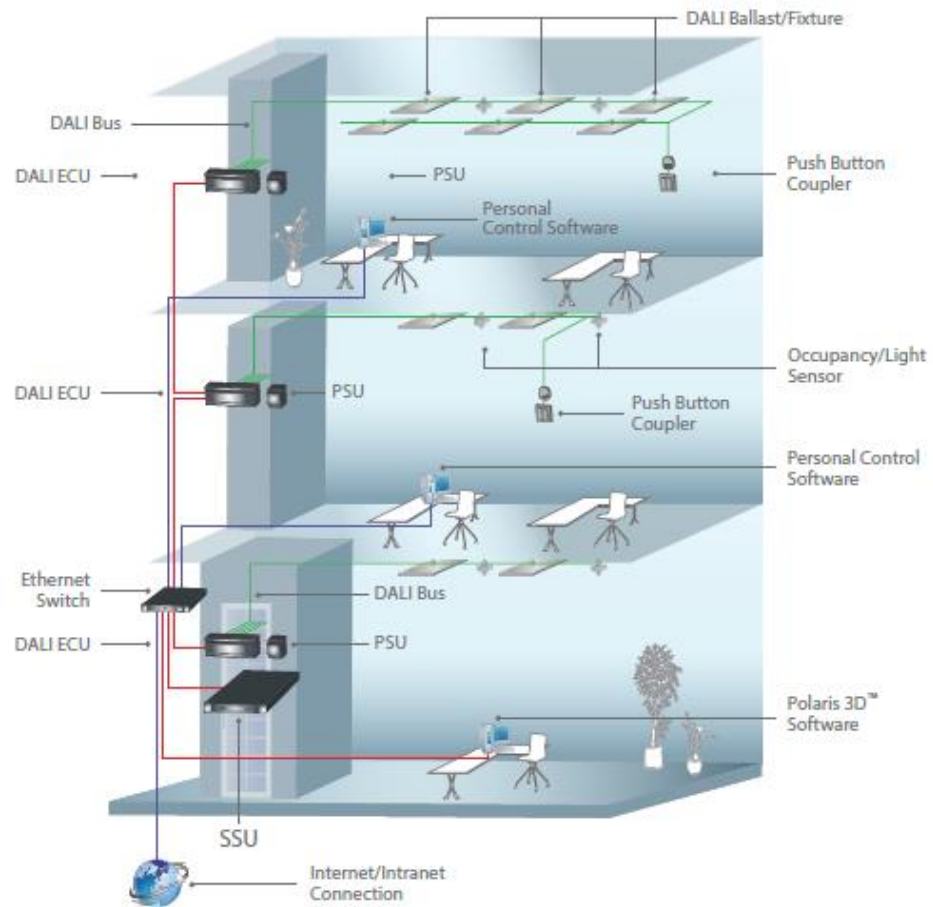

**View Wireless Path**

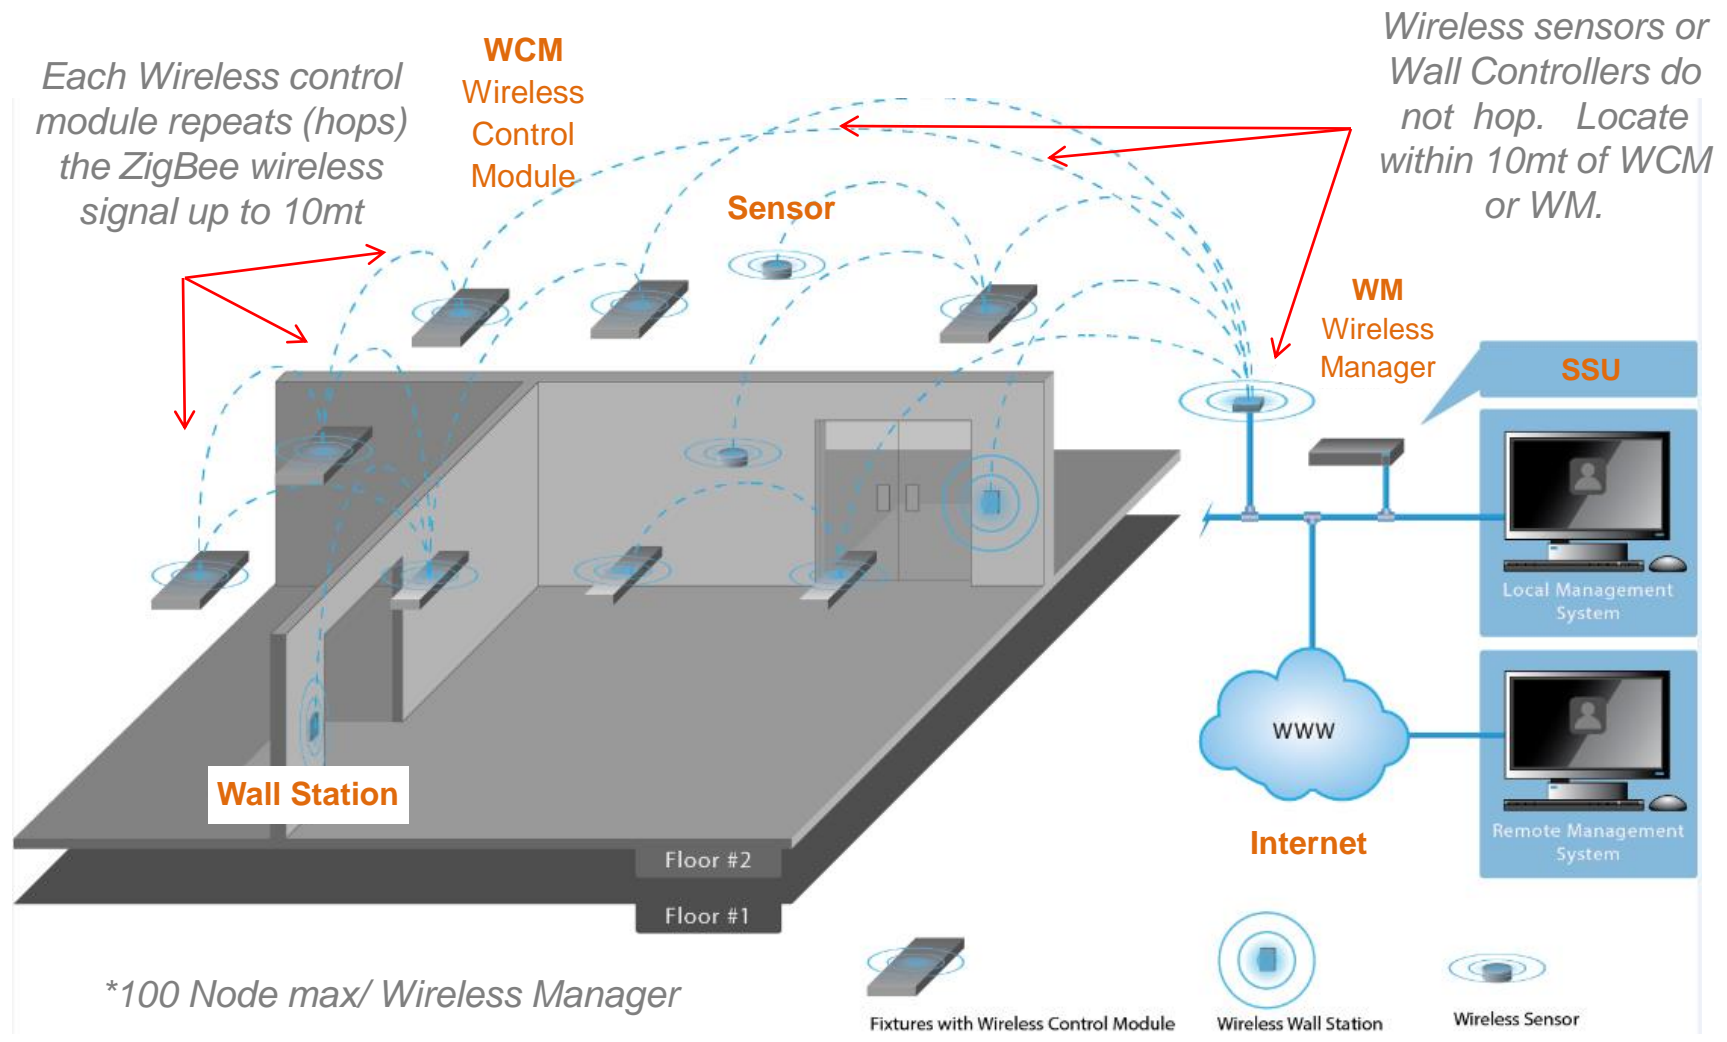

# DALI Wired Architecture

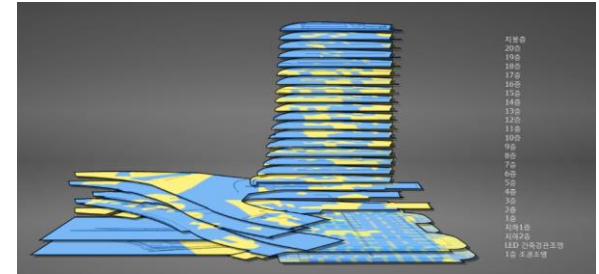

- A 2-wire DALI bus is used to interconnect ECGs and couplers (sensors, pushbuttons)
- ECGs and couplers are interconnected in a daisy chain topology and networked back to a “DALI ECU” (Energy Control Unit)
- ECU's reside on IP backbone and are linked to existing local area networks (LANs) to enable personal lighting control
- 1 SSU (System Support Unit) required per project to store system database and web services

## Wireless Architecture

## LH head quarter, a construction company in Korea

- Project Location: Korea
- Application: Office building
- Customer: LH construction company, who has multiple offices in various locations in Korea. They are the builder for government apartments
- Key Products:
- ENCELIUM system
- Key Success Factor:
- Energy saving and effective reporting
  - Visualized / Intuitive user interface

# ENCELIUM® Daylight harvesting

## @ OSRAM New DCS office, Shenzhen, China

---

Daylight harvesting - luminaires closed to the window are dimmed according to the incidence of natural light  
引入自然光节能 - 靠近窗口的灯具根据射入自然光的强度自动调暗光输出

# ENCELIUM® Occupancy control

## @ OSRAM New DCS office, Shenzhen, China

## Window current - LED design FREE

**Use case 1:** Same Lens with different LED power (overdrive)

#1	75W	72V	1050mA	OT 100
#2	86W	72V	1200mA	

**Use case 2:** LED upgrade (less LED)

#1	150W	214V	700mA	OT 150
#2	140W	200V	700mA	

**Use case 3:** Same fixture with different module

#1	120W	114V	1050mA	OT 150
#2	150W	143V	1050mA	

**Use case 4:** Different type fixture (different PCB)

#1	50W	48V	1050mA	OT 60
#2	50W	72V	700mA	

**Use case 5:** Same fixture for different projects

#1	180W	257V	700mA	OT 200
#2	170W	257V	660mA	

Different design but **SAME** driver!

LED design **FREE** with Lean stock / Product model

# Outdoor LED Power Supplies

## New Generation – Non-dimmable

### OT Outdoor High Current (SELV)

**OSRAM**

# OSRAM OPTOTRONIC® LED Outdoor driver

## OT Outdoor High Current (SELV) OT xxx/220-240/xxx P5

---

### Product Description

- 100W, 150W, 200W are available
- Adjustable output current by potentiometer
- SELV output (<120V)
- Temperature Range -40°C ~ +55°C
- Surge Protection up to 6kV (L/N) and 6kV (L/N-/PE)
- IP65
- For Protection Class I
- Aluminum housing
- CCC/CE

ON/OFF

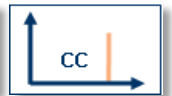

### Product Highlights

- Lifetime up to 100.000h at Tc(max) – 10C;
- Easier fixture design – SELV and Adjustable current
- Protection against moisture and dust with IP65
- Robust design resistant to vibration and shock
- Cables

### Application:

- Outdoor lighting
- Street, Urban and Industrial lighting
- Luminaires for harsh operating conditions

# OT Outdoor High Current (SELV)

## Max Flexibility: Adjustable output current

### Easy setup

Waterproof Adjustable  
output current

one original screw  
driver in each  
packing box

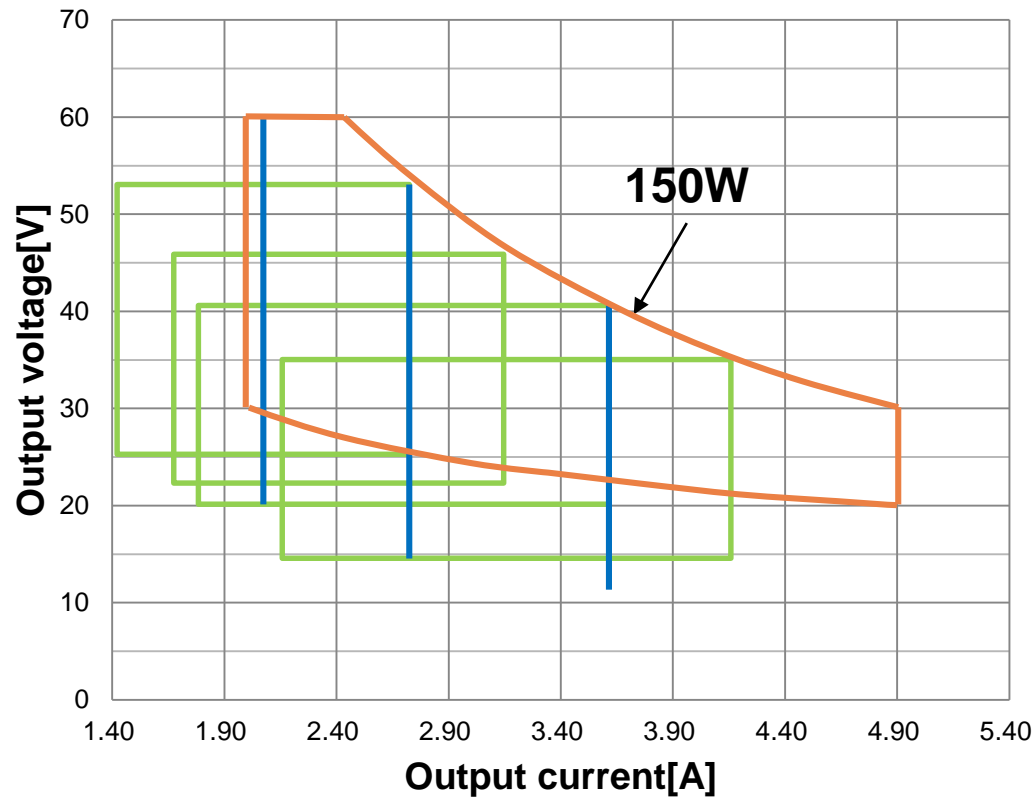

Turn the screw driver  
to adjust output  
current of driver with  
the power meter.

Close the waterproof  
cap and finished

# OT Outdoor High Current (SELV)

## Max Flexibility: Constant power Window current

A brand  
Fix output  
( 3 modules )

B brand  
Current adjustment  
( 4 models )

**OSRAM**  
**Window current**  
( 1 model )

1 model can replace >3 models ➡ Save Approbation and Logistic cost

**Many Thanks.**

**OSRAM**
